Title: Northeast Public Safety Facility - Pre-Construction Services and Construction Manager at Risk (CMAR) (District 5)

The Northeast Public Safety Facility is proposed to meet the increasing fire, medical and police public safety needs. The facility will accommodate up to two fire crews, one ambulance crew, and one battalion crew to handle the increasing emergency call volume in northeast Mesa, due to the continuous growth in the area. The facility will be located on an eight-acre site on the northeast quadrant of the Power and Brown Roads intersection.

Staff recommends selecting CORE Construction Inc. (a Mesa business), as the CMAR for this project and awarding a pre-construction services contract in the amount of $196,746. This project is funded by 2018 Public Safety Bonds.
