

Dear Mayor Giles and Members of the City Council,

We are looking forward to meeting with the Mesa City Council and members of the City administration this week. We are pleased to be working toward an Artspace project in Mesa and on behalf of Artspace, I want to reaffirm our commitment to helping Mesa move forward. We have assembled a great team from Artspace to lead this project, most of whom will be in Mesa this week, and you'll find their bios attached. These five staff members represent each area of Artspace, and together they represent years of experience and expertise.

Our goal is to create a sustainable, high quality project that can begin construction in 2016. We look forward to working hand in hand with the Mayor and Vice Mayor's offices, and in partnership with the City Manager's office, the Mesa Arts Center and NEDCO.

As in other cities with Artspace Projects' artist live/work facilities, the Mesa project will expand upon the vibrancy of the existing creative community and serve as a catalyst for growth and economic development.

Thank you for your continued support of Artspace in Mesa.

Sincerely,

A handwritten signature in black ink, appearing to read "Kelley Lindquist". The signature is fluid and cursive, with a large, stylized "K" and "L".

Kelley Lindquist
