Licensor may still hold Licensee liable under this License if the assignment is to an assignee which has a credit rating from one of the largest three national credit rating agencies lower than that of the Licensee at the time of assignment.

(b) Licensee may not, mortgage or grant a security interest in this License and/or the Antenna and/or the Equipment Cabinet.

(c) Any person or entity to which this License is assigned pursuant to the provisions of the Bankruptcy Code, 11 USC Sections 101, et seq., shall be deemed without further act to have assumed all of the obligations of Licensee arising under this License both before and after the date of such assignment. Any such assignee shall upon demand execute and deliver to Licensor an instrument confirming such assumption. Any monies or other considerations payable or otherwise to be delivered in connection with such assignment shall be paid to Licensor, shall be the exclusive property of Licensor, and shall not constitute property of the Licensee or of the estate of Licensee within the meaning of the Bankruptcy Code. 16. Dispute Resolution.

(a) Except as otherwise provided in this License, any controversy between the Parties arising out of this License or breach thereof, is subject to the mediation process described in (b).

(b) A meeting will be held promptly between the Parties to attempt in good faith to negotiate a resolution of the dispute. If within twenty (20) days after such meeting the Parties have not succeeded in resolving the dispute (subject to approval by Licensor's Board or legislative body), they will, within twenty (20) days thereafter submit the dispute to a mutually acceptable third Party mediator who is acquainted with dispute resolution methods. Licensor and Licensee will participate in good faith in the mediation and in the mediation process. The mediation shall be nonbinding. Neither Party is entitled to seek or recover punitive damages in considering or fixing any award under these proceedings.

(c) The costs of mediation, including any mediator's fees, and costs for the use of the facilities during the meetings, shall be born equally by the Parties. Each Party's costs and expenses will be borne by the Party incurring them.

The period for the performance of any such act shall then be extended for the period of such delay. In the event that Licensee invokes this provision because damage to the City Property has hindered, delayed, or prevented Licensee from using the Use Area, Licensee may immediately erect a temporary antenna facility on the Use Area necessary to resume service, provided that such temporary facility does not unreasonably interfere with Licensor's use of the City Property or ability to repair or restore the City Property. If, in Licensor's sole and absolute discretion, it elects to repair or restore the City Property, upon completion of such repair or restoration, Licensee is obligated to repair the Antenna and the Equipment Cabinet in accordance with the terms of this document.

Failure of Licensor to insist on strict performance of any of the conditions, covenants, terms or provisions of this License or to exercise any of its rights hereunder shall not waive such rights, but Licensor shall have the rights to enforce such rights at any time and take such action as might be lawful or authorized hereunder, either in law or equity. The receipt of any sum paid by Licensee to Licensor after a breach of this License shall not be deemed a waiver of such breach unless expressly set forth in writing.

20. Miscellaneous.

(a) Except for indemnification pursuant to Paragraphs 12 and 13, neither Party shall be liable to the other, or any of their respective agents, representatives, employees for any lost revenue, lost profits, loss of technology, rights or services, incidental, punitive, indirect, special or consequential damages, loss of data, or interruption or loss of use of service, even if advised of the possibility of such damages, whether under theory of contract, tort (including negligence), strict liability or otherwise.

Licensee may obtain title insurance on its interest in the City Property. Licensor agrees to execute such documents as the title company may reasonably require in connection therewith.

(e) This License shall be construed in accordance with the laws of the State of Arizona.

(f) If any term of this License is found to be void or invalid, such finding shall not affect the remaining terms of this License, which shall continue in full force and effect. The Parties agree that if any provisions are deemed not enforceable, they shall be deemed modified to the extent necessary to make them enforceable. Any questions of particular interpretation shall not be interpreted against the draftsman, but rather in accordance with the fair meaning thereof. No provision of this License will be deemed waived by either Party unless expressly waived in writing signed by the waiving Party. No waiver shall be implied by delay or any other act or omission of either Party. No waiver by either Party of any provision of this License shall be deemed a waiver of such provision with respect to any subsequent matter relating to such provision.

(g) The persons who have executed this License represent and warrant that they are duly authorized to execute this License in their individual or representative capacity as indicated.

(h) This License may be executed in any number of counterpart copies, each of which shall be deemed an original, but all of which together shall constitute a single instrument.

(l) Licensee shall conduct its activities in coordination with Licenser as necessary to maintain good relations with all governmental and other entities having jurisdiction over the Use Area, all other occupants of the Use Area, and the occupants of surrounding real property (this is not intended to, nor shall it, create any third party beneficiaries rights under this License).

Licensee shall immediately give to Licenser notice of any actual or threatened dispute, violation or other dispute relating to the Use Area. Licensee is not an agent for Licenser.

(m) Licensee shall at all times comply with all Applicable Laws. Further, Licensee's obligations hereunder are in addition to, and cumulative upon (and not to any extent in substitution or satisfaction of), all existing or future laws and regulations applicable to Licensee. (q) The Parties are aware of Sections 6003 and 6409(a) of the Middle Class Tax Relief and Job Creation Act of 2012, Public Law 112-96, preliminarily codified at 47 U.S.C. §§ 1403 and 1455(a) ("Section 6003" and "Section 6409(a)"), are aware that such Sections have not yet been interpreted and applied by the courts, have differing views on the Sections' potential applicability to this License, and have consulted their respective legal counsel with respect to same. Licenser may contend, among other things, that Sections 6003 and 6409(a) are unconstitutional under the Commerce Clause, Fifth and Tenth Amendments to the U.S. Constitution, do not apply to units of government acting in a proprietary capacity or if applied to

Antennas in the public rights of way may jeopardize the public health, safety and welfare. The resolution of such contentions, which may not come to pass, is premature. In order to reach agreement on the terms of this License, and only for the purposes of it, the Parties agree on a covenant not to sue as follows:

"Licensee, and its successors and assigns will not sue or contend, in any court, or before any agency or in any proceeding, that Sections 6003 or 6409(a) of the Middle Class Tax Relief and Job Creation Act of 2012, Public Law 112-96, preliminarily codified at 47 U.S.C. §§ 1403 and 1455(a), apply to or affect approvals required to be obtained from Landlord pursuant to this License. ## **Annual Fees for Wireless Communication Facilities (WCF) in the ROW (Instructions)**

The annual encroachment fees for wireless communications facilities in the rights-of-way categories above shall be administered according to the following rules:

- 1) The fee structure shall apply to the installation of any antennas, antenna structure, ground equipment, electronics, cabinets, power supply, power supply installed for the purpose of the wireless communication facilities and other appurtenances required or associated with the operation of a WCF in the City's rights-of-way (ROW), City easements (CE), and public utility easements (PUE).
- 2) All WCF in the ROW, CE, and PUE must have a Wireless Communication License (WCL) submitted to the City for each WCF site installed and operated in the ROW, CE, and PUE.

For situations where there is more than one ground equipment fixture or cabinet (adjacent to each other or within the same use area), the equipment fixtures, cabinets and generators are deemed to be part of the same contiguous ground equipment space and will be measured together within the same box. Any remote radio heads or remote radio units mounted to a cabinet, post, or wall in the same area with the ground equipment shall be included in the measurement for the ground equipment.
