

Creative Catalysts

Share what inspires you! Be a part of building our creative community!

Creative Catalysts is an initiative of Mesa Arts Center founded in the belief that the arts not only build our social fabric, providing vibrancy and personal enrichment, but are critical ingredients for community and economic development.

- 1** Engaging and involving those under 40, who will lead us into the future.
- 2** Active learning, experimentation, feedback and group process.
- 3** Providing opportunities for participants to grow their leadership skills through creative experiences and to apply those skills to community arts practice.
- 4** Helping to identify community needs and opportunities in the arts, and to develop projects that help meet those needs.
- 5** Creating low or no-cost experiences to actively engage new under-40 audiences.

Creative Catalysts is in its pilot, formative year, and YOU can get involved in designing, testing and assessing the initiative and its projects.
