Date 9-10-15

Statement:

"I support the SCIP application proposed by De Rito Partners to add a second loading dock. I understand that as part of the application, an older building will be removed, new landscaping and parking is proposed, new trees will be planted along the perimeter wall, and a taller fence will surround the loading dock. Most important, I support the proposal because the center will finally have a new grocery tenant that will help revitalize the center and hopefully bring other new commercial tenants to the area".
