

City Council Report

Date: May 16, 2016
To: City Council
Through: Alex Deshuk, Chief Innovation Officer
From: Edward Quedens, MPA, C.P.M., CPPO, Business Services Director
Matt Bauer, MBA, CPPO, CPPB, CPSM, Procurement Administrator
Subject: Replacement Purchase of Cisco Network Equipment for the Police Department **(Citywide)**

Purpose and Recommendation

Council is requested to approve the purchase of Cisco Network Equipment for the Police Department (PD) as recommended.

The Police and Information Technology Departments, and Purchasing recommend authorizing purchase using the State of Arizona contract with Insight Public Sector at \$129,114.66.

Background / Discussion

Mesa PD's existing firewalls were originally installed in 2008 have reached end of life, are no longer supported, and technologically obsolete. Replacement is necessary in order to better guard against modern-day threats and take advantage of next-generation security services for malware and intrusion detection. The proposed replacement equipment will allow Mesa PD to properly secure its network and ensure the integrity of law enforcement data such as Computer Aided Dispatch and Records Management System.

Using the State of Arizona cooperative contract provides the City high volume and more favorable discounts on information technology purchases. Information Technology obtained quotes for this purchase from two State contracted vendors. The lowest, cooperative quote, Insight Public Sector, is being recommended for award.

Alternatives

Council may choose not to authorize the purchase.

Fiscal Impact

This purchase is funded by the Information Technology Department budget through the Lifecycle Replacement Program.

Coordinated With

Police Department, Information Technology Department, and Purchasing
