

City Council Report

Date: July 11, 2016
To: City Council
Through: Kari Kent, Assistant City Manager
From: Beth Huning, City Engineer
Rob Kidder, Assistant City Engineer
Subject: Quarter Section Residential Street Overlays – Asphalt Only (in the vicinity of Lindsay Rd & Baseline Rd)
City Project No. LF0033G09D
District # 3

Strategic Initiatives

Purpose and Recommendation

The purpose of this report is to provide information to the Council concerning the results of the bids received for the Quarter Section Residential Street Overlays – Asphalt Only Project, for streets bounded by the US 60 Freeway, Lindsay Road, Baseline Road, and 24th St (See Exhibit “A” for the project location).

Staff recommends that Council award a contract for this project to the lowest responsible bidder, Nesbitt Contracting Co. Inc., in the amount of \$1,022,540.00, and authorize a change order allowance in the amount of \$102,254.00.

Background

The existing pavement in this residential area has fallen below the Pavement Condition Index (PCI) limits of normal maintenance and repair. The concrete ramps, driveways, and sidewalks have been retrofitted or replaced to meet current American Disability Act (ADA) standards, as part of a previously completed project.

Discussion

This project includes edge milling and overlaying the streets with Polymer Modified Terminal Blend Rubber asphalt to a depth of 1.5-inches.

Construction period for this project is 60 calendar days.

Alternatives

An alternative to this project would be to not construct these improvements. This would result in poor pavement conditions and unacceptable PCI levels for these residential streets.

Fiscal Impact

The total authorized amount recommended for this project is \$1,124,794.00, based upon the lowest responsible bid of \$1,022,540.00, plus an additional \$102,254.00 (10%) as a change order allowance. This allowance will only be utilized for approved change orders. Funding is available from the Local Street Sales Tax.

Coordinated With

The Transportation Department concurs with this recommendation.
