Re: Reference Case #BA14-020
Fiesta Commons

At the request of Chris Hinkson, owner of Fiesta Commons, had Arizona Commercial Signs change the master sign plan to accommodate additional large box tenants for more attached building signage with additional wall signs.

Salad and Go, located at 1040 W. Southern, is a new pad tenant requesting additional detached monument sign of 50 sq. ft., 9 feet in height, with the Fiesta District colors and logos.

The new requested Salad and Go sign meets the City of Mesa's current sign code, allowing this sign will give a total of 321 sq. ft. of detached signs on Southern. The City Code allows 610 sq. ft., with the additional Salad and Go sign height, we will be using a total of 55 ft., 8 inches. The current code is allowing 61 feet.

Please approve our requested sign area and additional sign height for Southern.

The Alma School signage is at its maximum aggregate height.

We are not requesting any signage on Westwood Road.

Sincerely,

Scott Hudson
President
