

# City Council Report

**Date:** May 8, 2017  
**To:** City Council  
**Through:** Mike Kennington, Chief Financial Officer  
**From:** Edward Quedens, MPA, C.P.M., CPPO, Business Services Director  
Matt Bauer, MBA, CPPO, CPPB, CPSM, Procurement Administrator  
**Subject:** Purchase of Replacement Servers and Software for the Customer Information System (CIS) Upgrade as requested by the Information Technology Department **(Citywide)**

## Purpose and Recommendation

Council is requested to approve the Purchase of Replacement Servers and Software for the CIS Upgrade as recommended.

The Information Technology Department and Purchasing recommend authorizing the purchase from State of Arizona cooperative contracts and lowest quoted vendors: CDW Government at \$30,959.42; and Insight Public Sector at \$5,977.40; and purchase from the sole source vendor, Hansen Technologies at \$23,591.15; for the combined total award of \$60,527.97.

## Background / Discussion

The City of Mesa's CIS System is used for City utilities billing and other services. This system is running on servers that are near the end of their supportable industry life. This server upgrade is timed to coincide with the software upgrade of the CIS system to minimize impact to Mesa citizens. In the process of upgrading, the Information Technology Department will also redesign the system to better protect customer credit card information per Payment Card Industry (PCI) guidelines.

## Alternatives

Council may choose not to authorize purchase and new quotes will be obtained.

## Fiscal Impact

This purchase is funded by the Information Technology Department application lifecycle FY2017 budget.

## Coordinated With

Information Technology and Purchasing

## **PURCHASING INFORMATION**

Action: One-Time Purchase Award

Contracting Agency: State of Arizona
