

City Council Report

Date: June 26, 2017
To: City Council
Through: Michael Kennington, Chief Financial Officer
From: Edward Quedens, MPA, C.P.M., CPPO, Business Services Director
Matt Bauer, MBA, CPPO, CPPB, CPSM, Procurement Administrator
Subject: Purchase for Software, Hardware, Services and Licenses for an Offsite Mirrored Storage Environment for the Police Department **(Citywide)**

Purpose and Recommendation

Council is requested to approve the Purchase for Software, Hardware, Services and Licenses for an Offsite Mirrored Storage Environment as recommended.

The Police and Information Technology Departments, and Purchasing recommend authorizing the purchase using The Cooperative Purchasing Network (TCPN) and State of Arizona cooperative contracts with Custom Storage (dba cStor) at \$217,338.08; and State of Arizona contract with CDW-G at \$12,645.79; for the total purchase of \$229,983.87.

Background / Discussion

The Police Department (PD) - Information Technology (IT) Unit has identified a need to create an offsite mirrored storage environment that will allow a back-up site for critical applications and shared drives. In the event of a complete system failure, a power failure or a critical event, the back-up site will allow access. The mirrored storage system will leverage software to reduce recovery time of critical systems in the event of a critical failure or cyber-attack such as Ransomware.

This project requires the purchase of software, hardware, services and a Microsoft Windows Server license. For the software, hardware and services portion, the Information Technology Department obtained cooperative contract quotes from cStor, Insight and SHI. cStor provided a single quote that references two different cooperative contracts (TCPN and State of Arizona). The City believes that issuing a formal bid would not result in any lower pricing than the discounts currently being provided under the State of Arizona cooperative contracts. The lowest quoted response, cStor is being recommended for award. The Microsoft Windows Server License will be purchased from the State of Arizona contract with CDW-G.

Alternatives

Council may choose not to authorize the purchase using the TCPN and State of Arizona contracts and new responses will be solicited.

Fiscal Impact

This purchase is funded by the Police Department operating budget.

Coordinated With

Police Department – IT, and Information Technology Department, and Purchasing

PURCHASING INFORMATION I

(Software, Hardware and Services)

Action: One-Time Purchase Award

Procurement Type: Request for Quotes (Cooperative Contract)
