

## **Plan of Operations**

4255 S. Power Road  
Mesa, AZ 85212

The hours of operation for the car wash will be 6 am to 11 pm, seven days a week. A minimum of 3 employees will normally staff the facility during business hours. Employees arrive an hour prior to opening to clean the site, test the equipment and maintain them as necessary. Employees also remain onsite after closing to clean, maintain and close the operations. During the day, various employees will assist customers at the pay-stations, clean and maintain mechanical equipment, clean the site, and assist customers with aligning vehicles into the correlator.

Employees may have a walkie-talkie system for constant communication between staff and assistance and security of customers as needed.

As part of the effort to reduce noise, the covered vacuum stations are provided with a radio speaker system that plays soft, calming music. This technique has been shown to reduce the number of people who play their radio at high volume.
