

Capital Improvement Project MAC North Studios Building

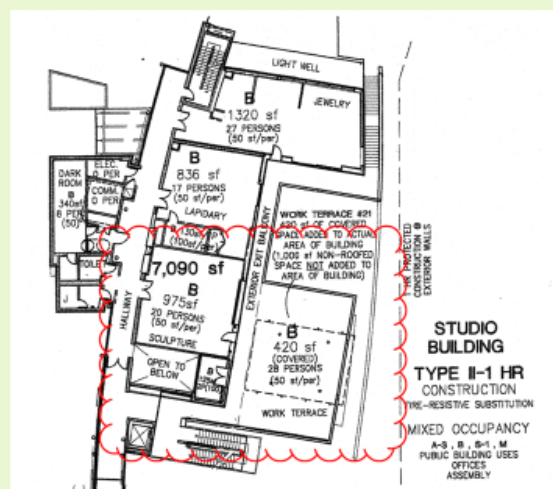

Metalworking Terrace Canopy and Gas Lines Improvements

1

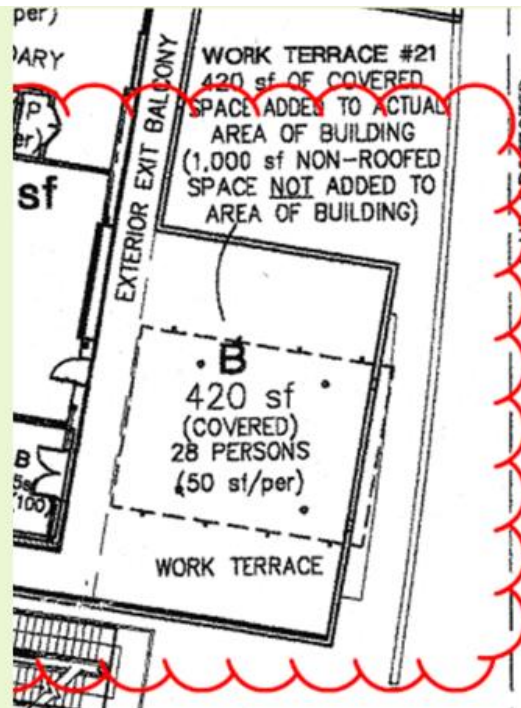

Gas Lines & Foundry Equipment

Current Code and Industrial Safety Standards require metal foundry equipment and gas lines on Metals Terrace protected from the elements

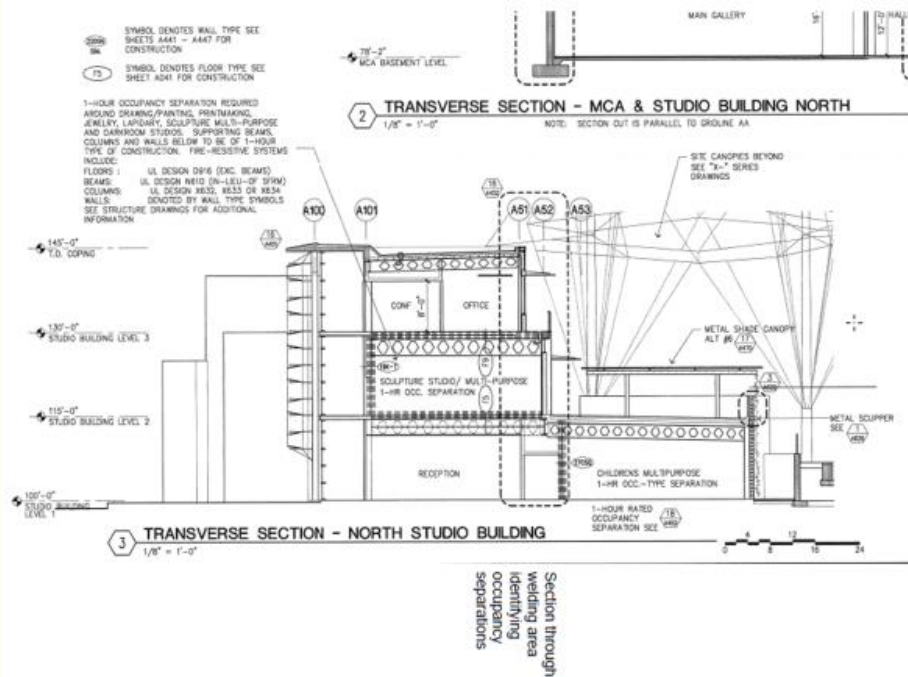

Other required changes include improvements to gas line valves, two furnaces and relocation of electrical panels at Glass & Metals outdoor spaces

Original MAC Design included shade cover on Metals Terrace; was included in construction documents as Alternate #6

3

Excerpts From Original Construction Documents

Appendix B

4

Project Costs

Total Costs include new gas line valves, new foundry furnace, relocated electrical panel, design, canopy fabrication, all installations and project management

Estimate: \$250,000

Will submit a proposal to the Mesa Arts & Entertainment Alliance for the remainder of its funds, which will cover a portion of this cost.

Remaining costs would need to be raised and/or paid from MAC Restoration Fund
