PHB Warrant Analysis Evaluation

The following factors are some items staff will evaluate prior to conducting a PHB Warrant Analysis

Consideration factors

- **Crash history**
- **Roadway layout**
- **Sight visibility**
- **Right-of-way**
- **Utility conflicts**
- **Adjoining sidewalks or pathways**
- **Existing signal network**
- **Cost to supply power**

PHB Warrant Analysis Evaluation

Staff will evaluate a PHB installation using the PHB Warrant Analysis. A minimum of **60 points** is recommended

PHB Warrant Analysis

Category	Points Possible
Average peak hour pedestrian/bicycle activity	25
Roadway traffic volume	25
Proximity to signalized/STOP controlled intersection	15
Proximity to pedestrian activity generator (senior center, medical facility, school, etc.)	15
Posted speed limit	12
Roadway number of vehicle travel lanes	8
Total	100

Refer to Appendix B in PHB Warrant Policy for point breakdown

Approval Process

Staff will budget for one (1) PHB per Fiscal Year. Additional PHB requests will be evaluated and prioritized using the PHB Warranty Policy.

Staff Evaluation

**Budget Adjustment Request
added to next budget cycle**

Staff Recommendation

Staff is seeking a recommendation from SAT for the approval of the PHB Warrant Policy
