Freedom Communities Neighborhood Meeting Summary

3900 S Mountain Rd
Mesa, AZ 85212

Meeting began at 6:30 pm

Mr. Lake then made a presentation regarding the project and some of the following key points:

- ❖ General Plan and Zoning exhibit
 - For change of use from employment/industrial to predominately residential, with commercial at future off ramp of Freeway
- ❖ Very early in process and obtaining neighbors input now
- ❖ Have not submitted to City yet, but have development concepts and ideas
- ❖ Neo-traditional style, with lineal park and parkway experience
 - Design is not down to subdivision detail level, still at a “30,000-foot view”
 - Site plan review to occur at a later date

Questions, Answers and Comments were taken. (See table below)

Meeting concluded at 7:02 pm

| <i>Public Comment</i> | <i>Applicant Response</i> |
|--------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>How wide will they be developing Williams Field Road and will it go to the end of the property?</i> | Williams Field Road is anticipated at build out to be a 7 lane road, with three ways in each direction and a center turn lane. It will meet City standards. The developer is responsible for half street improvements all along the property’s frontage. |
| <i>Will this project be developed before or after the construction of the 24?</i> | It is likely to be simultaneously. The developer will do their road improvements while the state begins their work on the freeway expansion. |
| <i>Has the land been purchased?</i> | The developers have it under contract. |
| <i>I have concerns with flooding in the area, especially Mountain Road.</i> | The project will engineer their roads consistent with City standards. The State will also do what they need to do for water flows and drainage when the freeway is designed and built. |

| | |
|-------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Is there land set aside for schools?</i> | We have been in touch with the school district and it is ultimately up to the district if they want property in the project area or not. The schools can build anyway and are not required to be located in any specific zoning district. |
| <i>Our property is not currently located in the City of Mesa.</i> | Similarly, a portion of our project area is also still in the County. We will be requesting annexation into the City of Mesa corporate limits. Your properties are not part of this request, and will remain in the County. It would require a separate application and filing from you to be annexed. |
| <i>With a development of this size is there not going to be any kind of commercial nearby?</i> | Yes, the project does incorporate commercial property that is located closer to the future freeway and off ramp that will be able to serve the new residents of this project and the existing surrounding neighborhoods. |
| <i>Is the water for the project on wells or being piped? We are on wells and don't want our water sucked dry.</i> | The City of Mesa does have sufficient water rights to serve this property and will be the water provider. |
