Subject: **Oppose Proposed Biolife Plasma Serv in Mesa**

Good Day: I oppise to having Biolife Plasma Services moving to 7538 E Hampton in Mesa, AZ. This Company will not be a good fit for our neighborhood. Thank you for your time.

Subject: **Plasma center support**

Hello

I am in support of this center. I have a 6 year old little girl who receives those plasma donations to live. Her name is Haylee she is in Kindergarten at Superstition Springs Elementary. She has a condition called Common Variable Immune Deficiency Disorder among other major health condntions.

We as mothers do fundraisers, walks to bring awarence to this disease to get people to those centers to donate plasma.

I will be at that meeting to support this center as well as my daughter so they can see where those donations go to where those plasma donations saves the lives of.

Thank you
Jessica Stevens

Subject: Plasma Donation Center
Reply-To: Tracy Mahan <tmahan@cox.net>

Dear Councilmember Thompsen:

I strongly oppose bringing a Plasma Donation Center into our community. This industry has historically located themselves in areas of extreme poverty, some with high drug abuse because the people willing to come in to donate plasma are compensated for their time. This source of income is important to the homeless, the drug user and the unemployed but it does not serve our community.

Why not place the center somewhere the people who need to sell plasma to survive are located rather than changing the landscape of our neighborhood.

We have such a nice, safe community. I appreciate anything you can do to help assure it stays a safe place to raise a family and where winter visitors will continue to feel safe to spend their tourism dollars.

Thank you,

Tracy Mahan
