Red Mountain Endodontics
4332 E. Florian Ave.
Mesa, AZ 85206

PROJECT NARRATIVE:

This project is for a new single story office building of approximately 8,996 s.f. Two existing lots will be combined for this development. This will be a multi-tenant building with an entrance centered on the south face of the building and additional entrances at each of the two front corners of the building.

The building will include large covered entrances and have a stucco exterior finish and insulated glass in aluminum frame windows. Mechanical units on the roof will be screened by the parapets. A landscape base will be provided at all sides of the building.
