

City Council Report

Date: August 20, 2018
To: City Council
Through: Michael Kennington, Chief Financial Officer
From: Edward Quedens, Business Services Director
Matt Bauer, Procurement Administrator
Subject: Five-Month Extension to the Term Contract for C-Cure Security Access System Upgrades for the Police Department **(Citywide)**

Recommendation

Council is requested to approve the contract renewal as recommended.

The Police Department and Purchasing recommend authorizing the extension with Tyco Fire and Security US Management Inc. dba Johnson Controls Security Solutions LLC for \$85,000.00, based on estimated usage.

Background / Discussion

Over the last three years, Tyco Integrated Security has implemented C-Cure version 9000 and upgraded all City building controllers to iStar, implemented C-Cure at the Regional Dispatch Center, provided labor services for C-Cure hardware repairs for Police Department - Information Technology, and recently upgraded C-Cure in the lobby of the Charles K. Luster building. The contract is being extended to provide enough time to rebid.

The C-Cure access control system utilizes a proprietary software product manufactured by Software House and Tyco is a licensed vendor of products that operate on this software.

Johnson Controls Security Solutions LLC agreed to extend the contract under the same terms, conditions and current pricing. The City has been satisfied with the vendor's performance over the last three years. This contract continues to be advantageous to the City and it is in the City's best interest to extend the contract.
