RE: Christ's Church of the Valley
East Valley Campus
SUP / SCIP
Neighbor Outreach

Dear Ms. Bridges;

As a part of our ongoing effort to reach out to the adjacent CCV East Valley neighbors to share with them the details of our planned development, I have had several conversations with Mr. Bruce Dunn. Bruce is the Development / Applicant with Paragon Development Group, for the Crismon Estates project at 9740 E. Hampton Ave.

We have shared with Bruce and his Development Principals the same documents you have received in our previous SUP / SCIP application. We have also provided Bruce with our updated Lighting and Photometric Plans that responded to recent CCV and city staff plan review concerns.

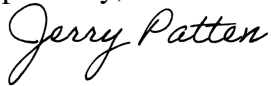

Upon review of these documents, Bruce conveyed to me that he could provide verbal support of the planned CCV improvements including the sports field lighting.

Bruce also advised that he would provide a letter of recommendation from the Crismon Estates principal upon his return to the area in January 2019.

Bruce offered to have you call him if you wish.

Please feel free to contact me with any questions in this regard.

Respectfully;

Jerry Patten
Development Manager
