

City Council Report

Date: December 2, 2019
To: City Council
Through: Michael Kennington, Chief Financial Officer
From: Edward Quedens, Business Services Director
Matt Bauer, Procurement Administrator
Subject: Purchase of Microsoft Licensing to Upgrade Mesa Police Department Servers as requested by the Information Technology Department **(Citywide)**

Recommendation

Council is requested to approve the award as recommended.

The Information Technology Department (ITD), Mesa Police Department, and Purchasing recommend authorizing the purchase using the State of Arizona contract with CDW-G at \$53,386.73, based on estimated requirements.

Background / Discussion

The Mesa Police Department (PD) is replacing their core computing systems as part of an effort to migrate storage and computing resources from the main Police campus to the new data center. Part of the purchase includes updated server hardware that has considerably more CPU cores than current systems. These additional cores require the purchase of additional Windows Server licenses in order to maintain compliance with the Microsoft license agreement. This purchase will put the Police Department's new virtualization environment onto current, fully supported operating-system versions, with support life-cycles appropriate for the new server hardware.

This Microsoft purchase is made under the existing Enterprise Agreement (EA) with Microsoft.

Purchase Information

Action: Award
