File #:	19-1233	Status:	Agenda Ready
Type:	Contract	In control:	City Council
On agenda:	1/13/2020		
Title:	Three-Year Term Contract with Two Years of Renewal Options for Leak Detection Equipment for Water Distribution and Transmission Mains for the Water Resources Department (Citywide)		
	<p>The contract will provide an electronic water leak monitoring system to assist with minimizing water loss and the size of excavations and damage to streets when making water main repairs to underground water infrastructure. This technology allows for on-site monitoring for locating leaks between two points in the distribution system on any size or material of pipe and increases the sensitivity of the location of the leak to within 3 feet. The system will provide up-to-date software to enhance the City's leak detection program.</p> <p>An evaluation committee recommends awarding the contract to the highest-scored proposal from Construction Product Marketing, LLC, at \$80,000 annually, with an annual increase allowance of up to 5%, or the adjusted Consumer Price Index.</p>

Three-Year Term Contract with Two Years of Renewal Options for Leak Detection Equipment for Water Distribution and Transmission Mains for the Water Resources Department **(Citywide)**

The contract will provide an electronic water leak monitoring system to assist with minimizing water loss and the size of excavations and damage to streets when making water main repairs to underground water infrastructure. This technology allows for on-site monitoring for locating leaks between two points in the distribution system on any size or material of pipe and increases the sensitivity of the location of the leak to within 3 feet. The system will provide up-to-date software to enhance the City's leak detection program.

An evaluation committee recommends awarding the contract to the highest-scored proposal from Construction Product Marketing, LLC, at \$80,000 annually, with an annual increase allowance of up to 5%, or the adjusted Consumer Price Index.
