

Legislation Details (With Text)

File #: 20-0115

Type: Contract

Status: Agenda Ready

In control: City Council

On agenda: 1/27/2020

Title: Purchase of Network Packet Collection Hardware (Replacement/Upgrade) for the Information Technology Department (Citywide)

This purchase will provide for the replacement of aging devices that enable the City to proactively monitor network data traffic to ensure continued system performance and security. The lifecycle upgrade of this network hardware will allow the City to take advantage of current monitoring tools and provides future expandability to support future network upgrades.

The Information Technology Department and Purchasing recommend authorizing the purchase using the State of Arizona cooperative contract and the lowest-quoted vendor, Enterprise Network Solutions (a Mesa business), at \$92,000, based on estimated requirements.
