### Six-Month Extension and Dollar-Limit Increase to the Term Contract for Fire System Water Meters for the Water Resources Department **(Citywide)**

Water Resources has requested the contract extension and increase to facilitate the rebidding of the contract. The department is completing research and testing two new types of maintenance-free, fire rated meters prior to re-bidding the contract. These new meters could potentially provide a substantial cost savings in annual maintenance costs to the City.

Water Resources and Purchasing recommend authorizing a six-month extension and dollar-limit increase of \$100,000.00 with Badger Meter, Inc., increasing the contract amount from \$165,241.04 to \$265,241.04, through May 31, 2015.
