Three-Year Term Contract for Reduced Pressure Backflow Prevention Assemblies for the Water Resources Department (**Citywide**)

This contract will provide various sizes of backflow prevention assemblies. Water Resources requires these backflow prevention assemblies when refurbishing existing water meter vaults to protect against back-siphoning and backpressure of contaminated water into the potable water supply.

Water Resources and Purchasing recommend awarding the contract to the lowest, responsive and responsible bidder, FWC Supply, LLC, at \$93,600.00 annually, based on estimated requirements.
