Northwest Water Reclamation Plant Miscellaneous Improvements, 2015 (**District 1**)

As part of periodic operations and maintenance, the Water Resources Department has developed a comprehensive list of miscellaneous improvements needed to maintain the reliability and efficiency of the existing plant. Currently, the needed improvements include various valve replacements, mechanical equipment replacements, restoration of coatings, and process control replacements and upgrades.

Recommended contract award to Hunter Contracting for a total amount of \$69,825.00. This project is funded by 2014 authorized Waste Water bonds.
