Three-Year Term Contract for a Performance Cooling Water Treatment Program for the Facilities Maintenance Department (**Citywide**)

This contract will provide water treatment on the District Cooling Loop, building chiller closed loops and cooling tower loops, and building boiler loops. This water treatment prevents microbial growth in the water systems.

An evaluation committee representing Facilities Maintenance and Purchasing evaluated and recommends awarding the contract to the highest scored proposal from Water and Energy Systems Technology, Inc. (a Mesa business), at \$40,000.00 annually, based on estimated requirements.
