Three-Year Term Contract for Graffiti Abatement Services for the Transportation Department (Citywide)

This contract will provide graffiti abatement services for buildings, walls, drainage channels, sidewalks, and light poles as-needed on public and private property throughout the City. Graffiti removal methods include color match painting, abrasive removal techniques, solvents, and high pressure water.

Graffiti Protective Coatings (GPC) submitted a protest and an appeal to the protest response. Both were denied.

The Transportation Department and Purchasing recommend awarding the contract to the lowest, responsive and responsible bidder Woods Maintenance Services, Inc., dba Graffiti Control Systems at \$167,000.00 annually, based on estimated requirements.
