Modifying fees and charges for Wireless Communication Facilities (WCF) for the Engineering Department and removing the WCF Guidelines for Construction from the Fee Schedule. **(Citywide)**

The Engineering Department's WCF fees and charges that were adopted by Council May 18, 2015, inadvertently omitted the equipment fee and total WCF annual fee from the fee schedule. Also, the WCF Guidelines for Construction are duplicative in the Schedule of Fees and Charges, as they are included in the Engineering standards.
