Three-Year Term Contract for Electronic Driver Feedback Signs for the Transportation Department (Citywide)

Driver feedback signs (radar speed display units) are electronic signs that measure vehicle speed and display it back to the driver in a digital format. The signs are typically deployed along roadways where speeding vehicles have been identified as a problem.

The Transportation Department and Purchasing recommend awarding the contract to the lowest, responsive and responsible bidder, Consolidated Electrical Distributors, Inc., dba Arizona Electric Supply (a Mesa business), at \$41,000.00 annually, based on estimated requirements.
