Three-Year Term Contract for Electric Utility Distribution Transformers for the Materials and Supply Warehouse (for the Energy Resources Department) **(Citywide)**

This contract will provide electric utility distribution transformers to the City's electric customers. The transformers are required for new/revised customer service installations and emergency and non-emergency equipment replacement installations. Materials and Supply places orders and maintains stock inventory as needed.

The Business Services, and Energy Resources Departments, and Purchasing recommend awarding the contract to Central Maloney, Inc.; and Border States Electric; cumulatively not to exceed \$1,083,235 annually, based on estimated requirements.
