### Purchase of Thirteen Replacement Chemical Feed Pumps for the Brown Road Water Treatment Plant for the Water Resources Department **(Citywide)**

These chemical feed pumps for metering alum and coagulant are critical for plant operations. The existing pumps are 31 years old, are at end of life and no longer supported by the manufacturer. The contractor will provide the equipment and plant staff will install the equipment.

The Water Resources Department and Purchasing recommend awarding the contract to the lowest, responsive and responsible bidder, McCarthy Integrated Systems LLC, at \$70,433.59. This purchase is funded by 2014 authorized Water Bonds.
