### Three-Year Term Contract for Backflow Testing and Repair Services for various City Departments (Citywide)

This contract will provide backflow assembly testing and repair services for the Transportation, Water Resources and Parks, Recreation and Community Facilities Departments. The contracted vendor will provide testing, repair, and report transmittals in a timely manner ensuring the backflow assemblies are in good working condition and in compliance with municipal code.

The evaluation committee recommends awarding the contract to the highest-scored proposal, Metro Fire Equipment, Inc., at \$90,000 annually, based on estimated requirements.
