One-Year Term Contract for Recycling Services for Cathode Ray Tube (CRT) Devices for the Environmental Management and Sustainability Department **(Citywide)**

This contract will provide recycling services for large quantities of CRT devices, including computer monitors and televisions collected during the City's Household Hazardous Waste events.

The evaluation committee recommends awarding the contract to the most advantageous and lowest-priced proposal from Electronic Responsible Recyclers, dba ER2 (a Mesa business), at \$55,000 annually, based on estimated requirements.
