### Three-Year Term Contract for Ultraviolet Lamp Assemblies for the Water Resources Department (Citywide)

The Northwest Water Reclamation Plant utilizes an ultraviolet disinfection system to aid in wastewater disinfection. The City has purchased quality aftermarket lamps for this system for the past several years. The products specified in this bid by brand and model number are the items that are already tested and found to be acceptable by the City.

The Water Resources Department and Purchasing recommend awarding the contract to the lowest, responsive and responsible bidder, UV Superstore, Inc., at \$29,700 annually, based on estimated requirements.
