One-Year Renewal to the Term Contract for Radio-Based Endpoint Encoders (for Water Meter Reading) for the Water Resources Department **(Citywide)**

This contract provides Itron radio-based endpoint encoders and accessories purchased directly from Itron, Inc., the manufacturer. The endpoint stores 40 days of hourly reads to ensure data integrity and offers advanced customer side leak detection and reverse flow and tamper alarms. Water Utility installs approximately 540 radio-based endpoint encoders on new and existing meters annually.

The Water Resources Department and Purchasing recommend authorizing the renewal with Itron, Inc., at \$100,000, based on estimated usage.
