File #: 18-0493, **Version:** 1

Purchase for Fiber Optic Expansion to the Mesa Cemetery for the Parks, Recreation and Community Facilities Department (as requested by the Information Technology Department) **(Citywide)**

This purchase will provide fiber cable installation, adding the Cemetery Administration building to the City's high-speed data network. It will improve the connectivity and speed, eliminate the existing monthly service cost and reduce the need for other network security hardware that is necessary for a VPN connection over cable or DSL. To minimize cost, the project will be utilizing existing Transportation conduit and City-owned fiber.

The Information Technology Department, the Parks, Recreation and Community Facilities Department, and Purchasing recommend authorizing the purchase using the State of Arizona cooperative contract with the lowest-quoted vendor: BPG Technologies, LLC, for \$50,000, based on estimated requirements.
