### One-Year Renewal to the Term Contract for Refuse Container Bin Lids for the Environmental Management and Sustainability Department **(Citywide)**

This contract provides replacement of damaged lids used for commercial metal bin refuse containers, and ensures Solid Waste has a supply of lids to meet the maintenance requirements of the City's bin inventory.

The Environmental Management and Sustainability Department and Purchasing recommend authorizing the renewal contract with Plastic Recovery Technology, dba PRT, at \$30,500, based on estimated usage.
