### Dollar-Limit Increase to the Term Contract for Herbicide Application and Landscaping Services for the Transportation Department **(Citywide)**

This contract provides vegetation management services in the City's rights-of-way and storm drainage easements. Transportation's need for herbicide application has increased every year since 2015, from 500,000 square yards to 827,756 square yards, to date. The increase is needed for the increased volume usage.

The Transportation Department and Purchasing recommend increasing the dollar-limit with Basin Tree Service & Pest Control, Inc., dba United Right of Way, by \$60,000, from \$300,000 to \$360,000 annually, for Years 4 and 5 of the contract term, based on estimated usage.
