Three-Year Term Contract with Two Years of Renewal Options for Corrosion Monitoring and Testing Services for the Water Resources Department **(Citywide)**

This contract will provide annual testing, inspection, maintenance, and minor repair services for corrosion monitoring and cathodic protection systems within the City's water, reclaimed water, and wastewater systems.

An evaluation committee recommends awarding the contract to the highest-scored and qualified proposals from Accurate Corrosion Control, Inc.; and Peak Corrosion Control, Inc., at \$250,000 annually, with an annual increase allowance of up to 5%, or the adjusted Consumer Price Index.
