File #: 19-1274, **Version:** 1

Ratification of the Emergency Purchase for Repair Service to a Platform Bucket for the Mesa Fire and Medical Department (Sole Source) **(Citywide)**

This emergency purchase provided for the repair of the platform bucket on a fire truck and recertification of the aerial device after the factory repairs were completed. This truck is responsible for ladder and extrication functions on the west side of Mesa including Tempe, Chandler, and Gilbert. The damage to the bucket resulted from pulling out of the fire station and coming into contact with the building, upon exiting the bay.

The Mesa Fire and Medical Department and Purchasing recommend ratifying the purchase from the sole source vendor, Hughes Fire Equipment, Inc., at \$55,703.59. This purchase is funded by the Capital General Fund.
