GENERAL NOTES

- 1.) The name RED ROCK DESIGN BUILD refers to its owners, officers, employees, and subcontracted consultants.
- 2.) These concepts, drawings, and specifications are the exclusive property of RRDB. All rights reserved and violators will be prosecuted to the fullest extent of the law.
- 3.) Prior to use of these documents the owner and contractor warrant that they have reviewed the plans for compliance to local building codes and standards. by using these plans the owner and contractor acknowledge that they are jointly and severally responsible to comply with any and all applicable local codes and ordinances.
- 4.) RRDB is not responsible for implementation errors, field changes, deletions, substitutions, and additions by others.
- 5.) The owner and contractor shall defend, indemnify and hold harmless RRDB from all liability in connection with the performance of work.
- 6.) The contractor and owner acknowledges that these design documents were based on ideal site conditions. The site conditions may need to be corrected to satisfy the intent of the design concept.
- 7.) RRDB has not inspected the site conditions. these documents have been prepared based on the soils report and information provided by the contractor and owner. The contractor is responsible for verifying site conditions.
- 8.) The structural engineering sheets of these documents are not approved for permitting or construction without a signed engineering seal.
- 9.) All construction shall conform to current international building codes. As well as all applicable local, state, and or federal law, or regulations
- 10.) The contractor or owner shall notify RRDB and engineer of all errors, omissions, and conflicts between codes, drawings, and specifications. the contractor shall not proceed with construction affected by the errors until they are addressed by RRDB and the engineer.
- 11.) Written dimensions shall take precedence over calculated and scaled dimensions.
- 12.) Contractor to verify all site conditions prior to starting work. Before work begins on the project, the contractor shall review the project with RRDB and/or the owner's authorized representative.
- 13.) These construction documents, including all plans, notes, details and specifications are intended to facilitate the installation contractor by providing general guidelines for design intent. It is the goal of the documents that the work is to be completed without change orders. All quantities shown in the documents are estimates only and not guaranteed; the contractor shall supply all materials, labor and equipment in order to fulfill the design intent.
- 14.) The contractor shall become familiar with the locations of the existing and future underground services and improvements which may conflict with the work to be done. Notify the owner's authorized representative immediately should a conflict arise.
- 15.) The contractor shall be responsible for securing all necessary permits and shall notify all utility companies with utilities on site prior to the construction of the project.

GENERAL NOTES

- 16.) Interpretation of the plans and specifications shall be made by the "author" or "architect/engineer-of-record" of the respective document and shall be considered final. Any possible ambiguity shall be submitted in writing by the contractor prior to submitting formal bids. All clarifications shall be prepared in writing by the "architect/engineer-of-record" prior to bidding. The contractor shall accept the interpretation of the "architect/engineer-of-record" as the correct and final interpretation.
- Any incidental installation procedure, material or equipment, not mentioned in these construction documents, the specifications nor shown on the plans, which may be necessary for completion and satisfactory operation of the design system shall be furnished and installed (as based on industry standards) as though shown or provided for.
- 17.) For underground utility coordination and 48 hours prior to start of construction (depending on area or jurisdiction), the contractor shall contact Underground services alert (usa) 1-800-227-2600
- 18.) These notes are to be used for general reference in conjunction with and as a supplement to the written specification, approved addendums, and the change orders as associated with these construction documents.
- 19.) Should the contractor have any questions regarding these construction documents or should there be any discrepancies, he shall contact RRDB for clarification before proceeding further. It is the contractor's responsibility to report to RRDB and/or the owner's authorized representative and discrepancies between the construction documents and field conditions prior to the start of work.
- 20.) The contractor shall adhere to all applicable local, state, and or federal law or regulation pertaining to the project.
- 21.) Contractor shall properly coordinate his work with other contractor's work prior to installation.
- 22.) The contractor shall take precautionary measures to protect existing improvements and the public from damage throughout construction.
- 23.) The contractor shall assume full responsibility for any damages imposed, unintentionally or accidentally to existing utilities, structures, walls or other amenities, due to the action of the contractor, contractor's employees and/or the contractor's subcontractors. Damage occurred during the contractor's operation shall be repaired, at the expense of the contractor operation shall be repaired, at the expense of the contractor, to the satisfaction of the owner's authorized representative.
- 24.) Match grades, layout and elevations of adjoining landscape work by others. Notify RRDB of conflicts before proceeding with construction.
