A. Introduction and Project Overview

On behalf of Eliseo Guadarrama Ramirez (the Applicant), this application is a request for approval of a rezone, minor General Plan amendment, Bonus Intensity Zone (BIZ) overlay, and Site Plan Review for the approximately 0.39 net acre property located at the southwest corner of University Drive and Longmore, otherwise commonly known as Maricopa County Assessor's Parcel Number 135-64-116 (the Property) (See **Tab A, Aerial Map**). The Property is currently operated as the San Antonio Tire Shop and was previously utilized for a gas station.

The Property is an undersized parcel that presents numerous development challenges. As detailed herein, the intent of the BIZ Overlay is to establish site-specific development standards and design criteria for development and operation of the Property for a high-quality minor auto repair business. The proposed development will substantially improve the existing condition of the site and support small business growth within the City of Mesa.

B. Relationship to Adjacent Properties

The Property is bounded by right of way on the north and east. To the north is University Drive, across which is a strip retail center zoned LC. To the east is Longmore, across which is an existing auto repair business zoned LC. To the south and west are single-family residential uses zoned RS-6.

Direction	Existing Land Use	Existing Zoning
North	Mixed Use - Restaurants & Retail Stores	LC
East	Pineda Tire Shop/Auto Repair	LC
South	Residential separated by alley	RS-6
West	Residential	RS-6

C. General Plan and Zoning

The City of Mesa 2050 General Plan, which was adopted in November 2024, includes substantial changes to the City's land use categories and corresponding planning requirements and guidelines. The updated General Plan Land Use Map designates the Property as Urban Residential with an Evolve Growth Strategy. (See **Tab B, General Plan Map**). The Urban Residential placetype

contemplates a diverse mixture of uses where commercial, residential, and public/semi-public uses co-exist. However, the General Plan classifies the proposed minor auto repair use as “Convenience Services”, which is not identified as a principal or supporting use in the Urban Residential placetype. Accordingly, this application requests a minor General Plan amendment to change the Property’s placetype to Urban Center with an Evolve growth strategy. This change is consistent with the General Plan amendment criteria as detailed in Section F below.

The Property is also located within the West Main Street Area Plan, the intent of which is to provide for transit-oriented development that contains mixed use. (See **Tab C, Area Plan Map**). However, the Property is located on the northern perimeter of the Area Plan within the Neighborhood Opportunity Area and is not located within the TOD Station Area or the TOD Corridor Area. The Property is already zoned for commercial uses and the proposed rezone will allow for redevelopment of a dilapidated infill site, which is consistent with the goals of the Area Plan.

The existing zoning for the Property is Office Commercial (OC). (See **Tab D, Zoning Map**). This district is intended for small scale medical and professional offices. Given the small size of the parcel and the parking requirements associated with such uses, the OC district is not practical for the Property. Accordingly, this application requests to rezone the Property to Limited Commercial (LC) to accommodate the proposed use.

D. Proposed Development

The Applicant proposes development of the Property with a minor auto repair shop. The footprint of the building, which is existing and will be repurposed and refurbished, encompasses approximately 4,015 square feet. (See **Tab E, Conceptual Site Plan**). The building is located in the rear half of the property with an existing canopy (dating from the Property’s use as a gas station) that extends northward towards University Drive. The building features a smooth stucco surface and a refurbished rectilinear massing that reinforces a professional commercial appearance. The front (north) elevation incorporates upgraded glazing at the customer entrance and clearly defined pedestrian access points, giving the building a more aesthetic street presence. (See **Tab F, Conceptual Renderings**).

The site design introduces organized parking areas, including striped customer stalls, accessible parking, and a more efficient circulation pattern for vehicle entry and exit. New landscaping, including shrubs, trees, decorative gravel areas, and landscape islands, softens the edges of the site and enhances the curb appeal while better accommodating the City’s modern landscaping standards. Updated screening elements, including low CMU walls and strategic plant placement, help buffer operational areas without obstructing visibility or compromising site functionality. (See **Tab G, Landscape Plan**).

Primary access to the site is via an entry-only driveway from University Drive. Vehicles exit the site to Longmore via an exit-only driveway in the southeast corner of the Property. A total of seven (7) parking spaces are provided with one (1) space designed for ADA compliance. A total of eleven (11) parking spaces are required per Mesa Zoning Ordinance (MZO) ratios. Accordingly, a parking reduction is requested as detailed below in Section E.

E. BIZ Overlay

The proposed development shall comply with the applicable MZO development standards for the LC district, except as modified below. The Project also meets the criteria for the requested BIZ Overlay by providing Superior Design per Section 11-31-32 of the MZO and addressing environmental performance standards as detailed below. Though limited substantially by the Property's small size and two street frontages, the proposed development takes a responsive approach to the site and site context to significantly improve the aesthetic and functional qualities of the Property.

Superior Design

a. High-quality materials, building form, and cohesive site design

The project incorporates high-quality, context appropriate materials and architectural detailing that create a cohesive and visually distinctive development. The existing building will be fully refurbished with smooth stucco finishes, upgraded glazing, and refreshed architectural detailing that reinforce a clean and professional commercial appearance.

The design integrates public art with a desert landscape mural along the Longmore frontage, which adds visual interest, reinforces local character, and creates a recognizable identity for the corner. The mural, combined with enhanced landscaping, decorative screening walls, and updated architectural finishes, creates a significantly enhanced site design.

b. Compatibility with character of surrounding area and creation of a sense of place

The project reflects the existing development pattern along this section of University Drive, which consists primarily of small-scale commercial and some automotive service uses serving adjacent neighborhoods. The proposed improvements elevate the architectural and landscape quality of the site while maintaining compatibility with adjacent development.

The redevelopment also incorporates design features that contribute to a unique sense of place, including the custom mural, enhanced street landscaping, and improved pedestrian interface along both street frontages.

c. Site design, architecture, and landscaping features that address local climate

The site design incorporates several features that respond to the desert climate and promote pedestrian comfort and sustainability. The existing canopy structure, which will be retained and refurbished, provides shade coverage that reduces summer sun exposure for vehicles and pedestrians within the site. A shaded customer waiting area with seating is also provided at the building entrance to create a comfortable space for customers.

The landscape design emphasizes low-water-use desert-adapted plant materials, including native trees, shrubs, and drought-tolerant ground cover that minimize irrigation demand while enhancing the visual quality of the site. The redevelopment also repurposes the existing building rather than demolishing it, reducing construction waste and supporting the City's goals for adaptive reuse and sustainable infill development.

d. Design features exceeding minimum ordinance standards

Although several development standards are modified through the BIZ overlay due to the unique constraints of the property, the project nonetheless exceeds the qualitative design objectives of the Mesa Zoning Ordinance through significant site and architectural upgrades. The redevelopment introduces:

- Substantial new landscaping and streetscape improvements along both street frontages
- Decorative screening walls and landscape buffering to soften operational areas
- Public art and architectural enhancements not required by code
- Improved site organization and circulation compared to the existing condition

Collectively, these elements produce a significantly higher-quality built environment than currently exists on the property and demonstrate the enhanced design approach contemplated by the BIZ overlay.

e. Attractive and comfortable pedestrian environment

The redevelopment significantly improves the pedestrian experience along the street frontages and within the site by introducing new landscaping, shade elements, pedestrian seating, and a visually engaging streetscape anchored by the Longmore mural.

Low masonry screening walls combined with landscaping help define the street edge while maintaining visibility and safety. The pedestrian pathway connecting the building entrance to the public sidewalk provides clear and convenient access for customers arriving on foot.

These improvements create a more attractive and comfortable environment for pedestrians, replacing the current underutilized and visually degraded site with a welcoming commercial corner.

Environmental Performance Standards

The project incorporates several design elements that reduce environmental impacts while supporting sustainable site development consistent with Section 11-21-3(B)(2) of the MZO.

a. Site Selection – Redevelopment of Economically Distressed Property

The project represents the redevelopment and rehabilitation of an aging commercial property, originally developed as a gas station. The proposed investment revitalizes a long-standing commercial corner that has experienced physical deterioration and underinvestment. Through building refurbishment, site improvements, landscaping upgrades, and architectural enhancements, the project transforms a commercial property into a productive and attractive neighborhood-serving business, consistent with the ordinance’s encouragement of redevelopment and reinvestment in existing developed areas.

b. Bicycle storage

The site design provides safe and convenient bicycle parking located near the building entrance, allowing customers and employees arriving by bicycle to securely store bicycles within a short and direct walking distance of the building entrance.

c. Restoration with native or adapted vegetation

The Property is a previously developed commercial site, formerly used as a gas station and later as a commercial service use. The proposed redevelopment includes substantial new landscaping with native and desert-adapted vegetation, including trees, shrubs, and ground cover materials appropriate to the environment. These improvements replace existing underutilized and minimally landscaped areas with enhanced planting areas that soften the visual character of the site and create a more attractive environment for customers and pedestrians.

BIZ OVERLAY TABLE		
LC Development Standards	Proposed Standard	Justification
<u>Parking Area Design</u> – <i>MZO Section 11-32-4(A)</i> -Minimum 50’ setback for parking spaces along main drive aisles connecting directly to a street and drive aisles that cross such main drive aisles	12’-10”	The small scale of this site makes compliance with this standard practically infeasible. The Property is only 133’ by 125’ and providing a 50’ setback would severely limit the developable area. The proposed standard allows for productive use of the Property with an efficient parking and circulation plan.
<u>Parking Reduction</u> – <i>MZO Section 11-32-3</i> - General Auto Repair (1/375 sf) 11 parking spaces required	4 parking spaces provided (includes 1 ADA space)	See additional discussion below.

<u>Parking Lot Landscape Islands</u> MZO Section 11-33-4(B) - Parking lot landscape islands required at each end of a row of stalls. Minimum dimensions: 8' wide and 15' long	4 landscape islands provided in varying sizes	Though parking lot landscaping is provided with trees and shrubs, it is impossible to achieve the full landscape island dimensions per the MZO without severely limiting site circulation and functionality.
<u>Building/Parking Area Setback –</u> MZO Section 11-6-3.A -Minimum 15' (Front- North) -Minimum 25' (Side adjacent RS - West) -Minimum 25' (Rear adjacent RS - South) -Minimum 15' (Street facing side - east)	North: 15' to parking lot West: 5'-1" to parking lot 23'-2" to building South: 22'-3" to building East: 10'-8" to building 14'-6" to parking lot	Because the existing building will remain and be repurposed, achieving the full setbacks required by the MZO is not feasible on this small infill site. The proposed setbacks accommodate the practical limitations of the site and enable adequate parking and circulation. Nevertheless, the proposed redevelopment will drastically improve the existing site conditions and create a more attractive streetscape while maintaining adequate buffers from adjacent uses.
<u>Landscape Setback Adjacent RS or RSL district–</u> MZO Section 11-33-3(B)(1) - Minimum 20' required	Varies - 5'-0" to 5'-8"	
<u>Foundation Base –</u> MZO Section 11-33-5(A)(1) -Required 15 feet along exterior wall with public entrance	0'	Given the nature of the proposed use, the location of the existing building, and the location of the drive aisles and pedestrian connections, the minimum
<u>Foundation Base –</u> MZO Section 11-33-5(A)(2) -Required 5 feet along exterior wall with no public entrance	West: 4'-10" East: 11'2" South: 2'-10"	foundation base required by code is not achievable on all elevations. A shaded customer waiting area with seating is provided at the building entrance and landscaping provided in the parking area and along the street frontages will provide an aesthetic customer experience. Notably, the provided percentage of landscape material exceeds the minimum required in the foundation bases provided on the south, east, and west elevations. The east elevation also
<u>Plant Material in Foundation Base –</u> MZO Section 11-33-5(B)(3)(a) Landscape area equal in length to 33% of adjacent exterior wall visible from right of way or public parking area	No landscape area provided in foundation base visible from right of way or public parking area along north elevation	

		provides an enhanced foundation base.
<u>Minimum Lot Size – Minor Automobile/Vehicle Service and Repair</u> <i>MZO Section 11-31-6</i> - Minimum 1 acre required	0.39 acres	The project's scale, design, and operational characteristics are compatible with surrounding commercial uses and will not create any functional or aesthetic impacts that a larger site would otherwise mitigate. Granting this relief allows productive reuse of an existing small lot while advancing the City's goals for reinvestment, small-business support, and revitalization of older commercial corridors.
<u>Bay Door Screening -</u> <i>MZO Section 11-30-9(F)(2)</i> - When bay doors are less than 200' from an adjacent street and less than perpendicular to street, 6' screen wall required	3' 4" screen wall provided along University Drive	Because the project is repurposing the existing building and University Drive driveway, a 6' screen wall along the frontage is not practical without impacting site visibility, access, and circulation. The provided screen wall and landscaping will improve the current condition and ensure sufficient site aesthetics
<u>Screen Wall Setback –</u> <i>MZO Section 11-30-(H)(7)</i> - Minimum 10' setback required between screen wall and right of way	0'	The Property's small size and two street frontages make conformance with this standard impractical. The provided landscaping and low screen wall ensure adequate separation and drastically improves the current condition.
<u>One-Way Drive Aisle Width –</u> <i>MZO Section 11-32-2(J)</i> - one way drive aisles that do not provide access to parking spaces must be at least 12-feet wide	11'-9"	The proposed minor deviation allows for improved site circulation while enabling adaptive reuse of the existing building.

Pedestrian Connection – <i>MZO Section 11-30-8(A)</i> - On-site walkway required from primary entry to public sidewalk on each street frontage	5' wide pedestrian walkway provided from public entrance to public sidewalk on Longmore	With only approximately 260' of street frontage, the 5' wide walkway from Longmore provides adequate pedestrian access without further limiting site functionality.
---	---	---

Parking Reduction

The proposed use requires a limited number of employees on-site at any given time. Typical staffing levels include two to three technicians and one service manager or owner. Customer visitation is short in duration, staggered throughout the day, and generally limited to drop-offs and pick-ups rather than extended stays. Most customers leave their vehicles on-site temporarily for service rather than remaining parked for extended periods. Because the nature of the use does not generate high customer turnover or prolonged customer parking demand, the practical parking needs of the business are substantially lower than the typical ratios applied to higher-intensity commercial uses. The four (4) provided spaces (including one ADA space) sufficiently accommodate both employees and customer turnover.

The Property is also constrained, with only 0.39 net acres and two street frontages. These conditions severely limit where parking can be located while still maintaining safe site circulation, required landscape buffers, access spacing requirements, and separation between pedestrian and vehicle movements. Achieving the full required number of parking spaces would necessitate redesigning the site in a way that would compromise circulation, eliminate required landscaping, or create unsafe vehicular access patterns. The BIZ overlay is explicitly intended to resolve such site-specific constraints by allowing flexibility while still achieving safe and functional design outcomes.

F. General Plan Amendment Criteria

1. Whether the proposed amendment will result in a shortage of land or other planned uses, such as, whether the change will result in a substantial and undesirable reduction in the amount of available land for employment.

The Property is already zoned for non-residential uses and the proposed General Plan amendment and rezone will not change that. The existing Urban Residential placetype contemplates a diverse mixture of uses where commercial, residential, and public/semi-public uses co-exist. The amendment will simply allow for a broader range of neighborhood commercial services available under the Urban Center placetype, including Convenience Services. The Urban Center placetype is prominent in the broader vicinity of the Property, most notably along Main Street.

2. Whether events after the adoption of the General Plan have changed the character or condition of the area, making the proposed amendment appropriate.

The proposed use is compatible with the character of the area, as evidenced by similar existing uses in the immediate vicinity. The proposed LC zoning district and specific use were compatible with the Property's General Plan character type in the 2040 General Plan, which was the General Plan of record when this entitlement process began. The proposed amendment will simply continue to permit the compatible uses.

3. The degree to which the proposed amendment will impact the whole community or a portion of the community by:
 - a. Altering acceptable existing land use patterns in a significant way that is contrary to the Vision, Guiding Principles, or Strategies identified in the General Plan.

The proposed amendment will not significantly alter the land use patterns in the area. The Property is already designated for non-residential uses. However, the small size of the parcel makes it incompatible with the uses contemplated by its existing zoning. The proposed amendment will simply allow a broader range of neighborhood commercial uses, including "Convenience Services". These uses are appropriate along a major arterial road such as University Drive.

- b. Requiring larger or more extensive improvements to roads, sewer, or water systems than are necessary to support the prevailing land uses which may negatively impact development of other lands.

The Property is less than one half of an acre and the scope of the proposed development and corresponding general plan amendment will not require any improvements to existing infrastructure.

- c. Adversely impacting existing uses due to increased traffic congestion that is not accommodated by planned roadway improvements or other planned transportation improvements such as nonmotorized transportation alternatives and transit.

As described above, the small scale of the Property and the proposed use will not cause any meaningful increases in traffic or adversely impact any existing uses.

4. Whether the proposed amendment is consistent with the Vision, Guiding Principles, or Strategies of the General Plan.

The proposed amendment is consistent with the following Guiding Principles and Strategies in the General Plan:

Guiding Principle: Our Economy is Innovative and Prosperous

Strategy ED2: Sustain a business climate that fosters entrepreneurs and small businesses.

The proposed General Plan amendment directly supports Strategy ED2 by facilitating the operation and long-term viability of a locally owned small business. The San Antonio Tire Shop is owned and operated by a local business owner and provides neighborhood-serving automotive services and local employment within an established commercial corridor. Allowing the Property to transition from the Urban Residential to the Urban Center placetype ensures that this small, service-oriented business, operating on a uniquely constrained parcel, can remain competitive and continue contributing to Mesa's economic diversity.

The requested rezone and BIZ overlay enable reinvestment and revitalization of this commercial corner. Supporting the reinvestment of capital into site upgrades, façade improvements, and landscaping, the City is affirming its commitment to creating an environment where small businesses can modernize, operate safely, and thrive. This approach is fully consistent with the General Plan's emphasis on cultivating homegrown businesses and removing barriers to entrepreneurial success.

Guiding Principle: Our Neighborhoods are Vibrant, Diverse, and Safe Places Where Our People Thrive.

Strategy N2: Promote adaptive reuse and infill as tools to rejuvenate and revitalize established neighborhoods.

The Property is a small parcel with unique challenges that limit its development potential. It was previously developed as a gas station and later housed a commercial carpet wholesaling business. Rather than leaving the aging structure underutilized or pursuing demolition for speculative redevelopment, the Applicant proposes to repurpose, refurbish, and significantly upgrade the existing building and surrounding site development.

The project improves the appearance, function, and compatibility of the site through enhanced landscaping, new screening, improved circulation, pedestrian-oriented features, and professional façade treatments, including a new mural on the Longmore frontage. These investments revitalize a long-standing commercial corner and eliminate blighted conditions while maintaining a scale appropriate to the surrounding residential and commercial context. The proposed redevelopment will provide a more attractive streetscape along University Drive.

Guiding Principle: Our City Offers Integrated and Balanced Land Uses with a Variety of Neighborhoods and Business Opportunities

Strategy LU2: Encourage infill and redevelopment to meet the community's strategic needs.

The Property is less than half an acre and constrained by two street frontages. Thus, it is not well suited for the types of residential or office uses contemplated under the Urban Residential placetype. Redevelopment of such a site requires flexible zoning tools to unlock its economic potential and accommodate physical constraints.

The project provides a strategic infill solution by modernizing an existing commercial building, improving site conditions, and delivering a conveniently located, neighborhood-serving business along a major arterial. It also prevents the parcel from becoming underutilized or falling into disrepair, which is an outcome the General Plan seeks to avoid through proactive infill and reinvestment policies.

By enabling a meaningful upgrade to an existing commercial corner without requiring additional infrastructure or expansion into adjacent residential areas, the amendment supports a more efficient land-use pattern and reinforces the City's commitment to sustainable redevelopment.

5. Whether the proposed amendment constitutes an overall improvement to the General Plan and the City of Mesa.

The proposed amendment constitutes an overall improvement to the General Plan by aligning the Property's placetype designation with its physical characteristics, historic use, and surrounding land-use context. The existing Urban Residential designation does not reflect the long-established commercial pattern along University Drive nor the constrained size and configuration of the parcel, which make it unsuitable for residential or office-centered intensities. Shifting the placetype to Urban Center more accurately captures the Property's existing role as a neighborhood-serving commercial site and permits a realistic range of uses that can operate successfully on such a uniquely constrained parcel.

6. The extent to which the benefits of the proposed amendment outweigh any of the impacts identified by these criteria.

The benefits of the proposed amendment substantially outweigh any potential impacts. The project enables meaningful reinvestment in an aging commercial property, supports a locally owned business, improves streetscape aesthetics, upgrades landscaping and screening, and preserves an appropriate buffer between commercial activity and adjacent single-family homes. The proposed use is small in scale, generates minimal traffic, and is compatible with both the existing zoning pattern and surrounding land uses, including other commercial and auto-service businesses along University Drive.

No public infrastructure improvements are required, and the project does not adversely impact traffic flow, utility capacity, or neighborhood character.

G. Adherence with Site Plan Review Criteria

The Project has been designed to adhere to the Site Plan Review (SPR) criteria specifically noted in Ordinance Section 11-69-5.A as follows:

- A. The project is consistent with and conforms to the adopted General Plan and any applicable sub-area or neighborhood area plans (except no analysis of the use if it is permitted in the zoning district on the property), is consistent with the development standards of this Ordinance, and is consistent with and meets the intent of any applicable design guidelines.

Response: The proposed development is consistent with the requested Urban Center place type and the Main Street Area Plan. The project provides a strategic infill solution by modernizing an existing commercial building, improving site conditions, and delivering a conveniently located, neighborhood-serving business along a major arterial.

- B. The project is consistent with all conditions of approval imposed on the property whether by ordinance, resolution or otherwise.

Response: The Project will comply with all conditions of approval associated with the requested rezone and BIZ Overlay.

- C. The overall design of the project, including but not limited to the site layout, architecture of the buildings or structures, scale, massing, exterior design, landscaping, lighting, and signage, will enhance the appearance and features of the site and surrounding natural and built environment.

Response: The project enables meaningful reinvestment in an aging commercial property, supports a locally owned business, improves streetscape aesthetics, upgrades landscaping and screening, and preserves an appropriate buffer between commercial activity and adjacent single-family homes.

- D. The site plan is appropriate to the function of the project and will provide a suitable environment for occupants, visitors, and the general community.

Response: The site plan vastly improves the existing appearance and functionality of the Property. The site design is appropriate for the proposed use and will provide a quality environment for customers and employees.

- E. Project details, colors, materials, and landscaping are internally consistent, fully integrated with one another, and used in a manner that is visually consistent with the proposed architectural design.

Response: The Project provides details, colors, materials, and landscaping that are internally consistent and integrated in a manner visually consistent with the architectural design, creating a cohesive aesthetic throughout.

- F. The project is compatible with neighboring development by avoiding big differences in building scale and character between developments on adjoining lots in the same zoning district and providing a harmonious transition in scale and character between different districts.

Response: The project maintains appropriate scale at this commercial corner in a manner compatible with the existing commercial development along University Drive. It also maintains a scale appropriate to the surrounding residential to the south and east.

- G. The project contributes to the creation of a visually interesting built environment that includes a variety of building styles and designs with well-articulated structures that present well designed building facades, rooflines, and building heights within a unifying context that encourages increased pedestrian activity and promotes compatibility among neighboring land uses within the same or different districts.

Response: The project improves the appearance, function, and compatibility of the site through improved landscaping, new screening, improved circulation, pedestrian-oriented features, and professional façade treatments, including a new mural on the Longmore frontage. These investments revitalize a long-standing commercial corner and eliminate blighted conditions while maintaining a scale appropriate to the surrounding residential and commercial context. The proposed redevelopment will provide a more attractive streetscape along University Drive.

- H. The streetscapes, including street trees, lighting, and pedestrian furniture, are consistent with the character of activity centers, commercial districts, and nearby residential neighborhoods.

Response: Street trees, lighting, and pedestrian amenities will be incorporated as part of the project's frontage improvements to create a cohesive and attractive streetscape. These elements will complement existing features along University Drive and enhance the pedestrian experience for nearby residents and businesses. Together, these enhancements ensure the project's streetscape is consistent with the visual and functional quality of the development.

- I. Street frontages are attractive and interesting for pedestrians and provide for greater safety by allowing for surveillance of the street by people inside buildings and elsewhere.

Response: The proposed redevelopment will provide a more attractive streetscape along both University Drive and Longmore. Improved landscaping and site design, including the

installation of a new mural along Longmore, will create more interesting pedestrian experience.

- J. The proposed landscaping plan is suitable for the type of project and site conditions and will improve the appearance of the community by enhancing the building and site design; and the landscape plan incorporates plant materials that are drought-tolerant, will minimize water usage, and are compatible with Mesa's climate.

Response: The landscape design features native desert plants and appropriate trees, shrubs, and ground cover materials to accentuate the natural environment. The plants require minimal irrigation beyond establishment, and as native varieties should thrive with naturally occurring rainfall. Parking areas are screened with patterned masonry walls and landscape trees and shrubs.

H. Summary

This proposed rezone and BIZ Overlay represents an opportunity for reinvestment in a challenging property, transforming a dilapidated and underutilized site into a productive small-business operation. By activating the parcel with a locally owned service use, the project supports Mesa's small-business economy and adds skilled employment opportunities to the area. The redevelopment will revitalize the Property with a clean, functional design that enhances curb appeal and the character of this corridor.

LOCATED IN A PORTION OF THE
SOUTHEAST QUARTER OF SECTION 21, TOWNSHIP 1 NORTH, RANGE 4 EAST, GILA AND SALT
RIVER MERIDIAN, MARICOPA COUNTY, ARIZONA

CITY OF MESA GENERAL NOTES

- ALL WORK AND MATERIALS SHALL CONFORM TO THE CURRENT UNIFORM STANDARD SPECIFICATIONS AND DETAILS FOR PUBLIC WORKS CONSTRUCTION AS FURNISHED BY THE MARICOPA ASSOCIATION OF GOVERNMENTS AND AS AMENDED BY THE CITY OF MESA. ALL WORK AND MATERIALS NOT IN CONFORMANCE WITH THESE AMENDED SPECIFICATIONS AND DETAILS ARE SUBJECT TO REMOVAL AND REPLACEMENT AT THE CONTRACTOR'S EXPENSE.
- SEPARATE RIGHT-OF-WAY PERMITS ARE REQUIRED FOR ALL PUBLIC UTILITIES, PUBLIC STREET IMPROVEMENTS, AND RIGHT-OF-WAY LANDSCAPING. FOR INFORMATION REGARDING AVAILABILITY AND COST OF RIGHT-OF-WAY PERMITS, CONTACT THE DEVELOPMENT SERVICES DEPARTMENT AT (480) 644-4273 OR AT [HTTP://WWW.MESA.AZ.GOV/DEVSUSTAIN/CONSTRUCTIONPERMITS.ASPX](http://www.mesaaz.gov/devsustain/constructionpermits.aspx). THE CONTRACTOR SHALL OBTAIN ALL PERMITS REQUIRED UNLESS OTHERWISE NOTED. CONTRACTORS MUST HOLD THE APPROPRIATE CLASS OF LICENSE AND SHALL HAVE ON FILE WITH THE PERMIT SERVICES SECTION PROOF OF INSURANCE COVERAGE. PERMITS BECOME INVALID AND MUST BE UPDATED IF WORK HAS NOT BEGUN WITHIN NINETY (90) DAYS. PERMITS ALSO BECOME INVALID IF THE CONTRACTOR'S INSURANCE LAPSES OR IS VOIDED.
- TWENTY FOUR (24) HOURS PRIOR TO THE COMMENCEMENT OF ANY WORK, CONSTRUCTION OR INSTALLATIONS ASSOCIATED WITH THIS PERMIT, THE PERMITTEE SHALL NOTIFY CITY OF MESA ENGINEERING DEPARTMENT AT (480) 644-2251 OF INTENT TO BEGIN AND REQUEST/SCHEDULE PRELIMINARY FIELD REVIEW AT THE PROJECT SITE WITH THE CITY OF MESA ENGINEERING DEPARTMENT CONSTRUCTION INSPECTOR (CITY INSPECTOR). FAILURE TO PROVIDE PROPER INSPECTION NOTIFICATION AS PRESCRIBED ABOVE SHALL RESULT IN THIS PERMIT BECOMING INVALID AND WORK BEING STOPPED.
- CONTRACTOR'S SHALL COMPLY WITH THE REQUIREMENTS TO OBTAIN THE NECESSARY RIGHT-OF-WAY PERMITS AND SHALL COMPLY WITH THE RIGHT-OF-WAY PERMIT CONDITIONS AS FOUND ON THE BACK OF THE PERMIT FORM.
- THE CITY OF MESA PARKS & RECREATION DIVISION IS NOT REPRESENTED BY BLUE STAKE. WHEN THE CONTRACTOR EXCAVATES NEAR OR ADJACENT TO A CITY PARK, THE CONTRACTOR SHALL CONTACT THE PARKS & RECREATION ADMINISTRATION SECTION AT (480) 644-2354 TO REQUEST ASSISTANCE IN LOCATING ALL THEIR UNDERGROUND FACILITIES.
- THE CONTRACTOR SHALL OBTAIN AN EARTH-MOVING PERMIT FROM THE MARICOPA COUNTY ENVIRONMENTAL SERVICES DEPARTMENT AND SHALL COMPLY WITH ITS REQUIREMENTS FOR DUST CONTROL.
- THE ENGINEER HEREBY CERTIFIES AS EVIDENCED BY A PROFESSIONAL SEAL & SIGNATURE, THAT ALL AFFECTED UTILITY COMPANIES BOTH PUBLIC AND PRIVATE HAVE BEEN CONTACTED AND ALL EXISTING AND/OR PROPOSED UTILITY LINES AND OTHER RELATED INFORMATION HAVE BEEN TRANSFERRED ONTO THESE PLANS.
THE ENGINEER OR ARCHITECT ALSO HEREBY CERTIFIES THAT ALL EXISTING AND/OR PROPOSED PUBLIC RIGHT-OF-WAY AND EASEMENTS HAVE BEEN CORRECTLY PLOTTED/SHOWN.

CITY OF MESA PUBLIC STREET/RIGHT-OF-WAY IMPROVEMENT NOTES

- THE DEVELOPER AND THE CONTRACTOR ARE REQUIRED TO COORDINATE THE PLACEMENT OR INSTALLATION OF DRIVEWAYS IN ORDER TO AVOID CONFLICT WITH UTILITY SERVICES.
- ALL FRAMES, COVERS, VALVE BOXES, MANHOLES, ETC., SHALL BE INSTALLED TO FINISH GRADE OR SHALL BE ADJUSTED TO FINISH GRADE AFTER PLACING OF ASPHALTIC SURFACE COURSE BY THE CONTRACTOR PER M.A.G. STANDARD DETAIL 270 AND 422.
- THE CONTRACTOR SHALL ADJUST ALL FRAMES, COVERS, VALVE BOXES, MANHOLES, ETC. THAT ARE LOCATED WITHIN THE PARKWAY AREA AFTER FINAL GRADING AND INSTALLATION OF LANDSCAPING.
- ALL LANDSCAPING IMPROVEMENTS, INCLUDING IRRIGATION SYSTEMS WITHIN THE PUBLIC RIGHT-OF-WAY OR RETENTION BASINS THAT ARE TO BE MAINTAINED BY THE CITY OF MESA, SHALL BE IN ACCORDANCE WITH THE LANDSCAPING AND IRRIGATION STANDARDS BOOKLET.
- THE STREET PAVING PERMITTEE/CONTRACTOR IS HEREBY NOTIFIED THAT IN THE EVENT THAT ACCEPTANCE OF THE PUBLIC STREET PAVING IS DELAYED; SIX MONTHS OR MORE AFTER THE PAVEMENT WAS INSTALLED, THE PERMITTEE/CONTRACTOR SHALL APPLY A SEAL COAT TO THE PAVEMENT. TYPE OF MATERIAL AND RATE OF APPLICATION WILL BE DIRECTED BY THE CITY OF MESA ENGINEERING DEPARTMENT.
- A STANDARD RESIDENTIAL DRIVEWAY APPROACH SHALL BE CONSTRUCTED TO A MAXIMUM WIDTH OF 30 FEET UNLESS SPECIAL APPROVAL HAS BEEN OBTAINED.

Citizen Participation Plan for San Antonio Tire Shop

Purpose

The purpose of this Citizen Participation Plan is to inform citizens, property owners, neighborhood associations, agencies, schools, and businesses in the vicinity of the site of an application for the San Antonio Tire Shop. This site is located at 1609 W University Dr, on the southwest corner of Longmore Rd and University Drive and is an application for the rezoning of 0.39 acres from Office Commercial (OC) to Limited Commercial (LC) for a minor auto repair shop. This plan will ensure that those affected by this application will have an adequate opportunity to learn about and comment on the proposal.

All Right Builders, Inc.

Contact: Lee Price / Tami Price

Phone: (480) 466-8997 / (602) 770-5651

Email: allrightbuilders@gmail.com

Pre-Submittal Conference

The Pre-submittal Conference with City of Mesa Development Services staff was held on June 4, 2024. Staff reviewed the application and recommended that adjacent residents, nearby HOA'S and registered neighborhoods be contacted.

Action Plan

In order to provide effective citizen participation in conjunction with this application, the following actions will be taken to provide opportunities to understand and address any real or perceived impacts that members of the community may have.

1. A contact list will be developed for citizens and agencies in this area including:
 - a. All registered neighborhood associations within one mile of the project.
 - b. Homeowners Associations within one half mile of the project.
 - c. Surrounding property owners within 500-feet from site

2. All persons listed on the contact list will receive a letter describing the project, project schedule, site plan, and invitation to a series of two neighborhood meetings to be held at Sheraton/Courtyard Mesa Hotel at Wrigleyville West located at 860 N Riverview, Mesa, AZ 85201.
 - a. The first meeting will be an introduction to the project, and opportunity to ask questions and state concerns. A sign-in list will be used and comment forms provided. Copies of the sign-in list and any comments will be given to the City of Mesa Planner assigned to this project.
 - b. The second meeting will be held two weeks later and will include responses to questions and concerns of the first meeting. A sign-in list and comment cards will be copied to the City of Mesa Planner.
3. Presentations will be made to groups of citizens or neighborhood associations upon request.

[All materials such as sign-in lists, comments, and petitions received shall be uploaded to the record for the case.]

Schedule

Date	Event
June 4, 2024	Pre-Submittal Conference
February 10, 2025	Application Submittal
April 14, 2025	First Neighborhood Meeting
April 28, 2025	Second Neighborhood Meeting
April 30, 2025	Submittal for Citizen Participation Report and Notification Materials
June 11, 2025	Planning and Zoning Board Hearing

Citizen Participation Report

Case # ZON25-00110 / GPA26-00111

April 30, 2026

Overview: This report provides results of the implementation of the Citizen Participation Plan for the San Antonio Tire Shop. This site is located at 1609 W University Dr. on the southwest corner of Longmore Rd and University Drive and is an application for the rezoning of 0.39 acres from Office Commercial (OC) to Limited Commercial (LC) with a Minor General Plan Amendment and Bonus Intensity Zone Overlay (BIZ) for a minor auto repair shop. This report provides evidence that citizens, neighbors, public agencies, and interested persons have had adequate opportunity to learn about and comment on the proposed plans and actions addressed in the application. Comments, sign-in lists, petitions, letters, summary sheets and other materials are attached.

Neighborhood Meetings:

The following are dates and locations of all meetings where citizens were invited to discuss the proposal (comments, sign-in lists and other feedback are attached);

1. 06/12/2025 - Webster Elementary School, 202 N Sycamore, Mesa, AZ 85201, 06:00 PM to 07:00 PM - 0 citizens in attendance. (See **Tab B, 06/12/2025 Meeting Sign-In List**)
2. 04/29/2026 - Webster Elementary School, 202 N Sycamore, Mesa, AZ 85201, 06:00 PM to 07:00 PM - 12 citizens in attendance. (See **Tab D, 04/29/2025 Meeting Sign-In List**)

Correspondence and Telephone Calls:

1. 1st letters mailed to contact list (1,000 feet of the subject site; 326 citizens) on 06/02/2025 (See **Tab A, 06/12/2025 Meeting Notice & Enclosures**).
2. 2nd letters mailed to contact list (1,000 feet of the subject site; 326 citizens and 50 registered neighborhood entities) including homes, apartments, HOAs,

schools and Neighborhood Associations on 04/10/2026. (See **Tab C, 04/26/2026 Meeting Notice & Enclosures**)

3. ZON25-00110 Meeting notice mailed to contact list (500 feet of the subject site; 81 citizens) on 04/27/2026. (See **Tab G, ZON25-00110 Meeting Notice Affidavit, Meeting Notice & Enclosures, Contact List**)
4. GPA26-00111 Meeting notice mailed to contact list (500 feet of the subject site; 81 citizens) on 04/27/2026. (See **Tab H, GPA2600111 Meeting Notice Affidavit, Meeting Notice & Enclosures, Contact List**)
5. Public Notice signage posted at site on 04/28/2026. (See **Tab I, Affidavit of Public Posting**)
6. Letter of Support received from the adjacent property owner, Fausto Roman located at 1617 W University Dr, Mesa, AZ 85201 on 04/28/2026. (See **Tab J, Letter of Support**)

Results (June 12, 2025 Neighborhood Meeting):

There were 326 persons (See **Tab E, Citizen Contact List Within 1,000 Feet**) and 50 entities (See **Tab F, Registered Neighborhood Contact List**) on the contact list as of the date of this Citizen Participation Report.

1. Summary of concerns, issues and problems:
 - a. None; no citizen attendance at the June 12, 2025 Neighborhood Meeting
2. How concerns issues and problems were addressed:
 - a. Not applicable; no citizen attendance at the June 12, 2025 Neighborhood Meeting
3. Concerns, issues, and problems not addressed and why:
 - a. Not applicable; no citizen attendance at the June 12, 2025 Neighborhood Meeting

Results (April 29, 2026 Neighborhood Meeting):

There were 326 persons (See **Tab E, Citizen Contact List Within 1,000 Feet**) and 50 entities (See **Tab F, Registered Neighborhood Contact List**) on the contact list as of the date of this Citizen Participation Report. A Neighborhood Meeting was held on April 29, 2026, with 12 citizens in attendance. The following summarizes the concerns, questions, and feedback received, along with the Applicant's responses:

1. Summary of concerns, issues, and problems:
 - a. Parking reduction to four (4) spaces and potential for off-site parking impacts
 - b. Noise and light pollution associated with a 24-hour operation

- c. Need for an additional tire shop given an existing similar business across Longmore Ave
- d. Tow truck traffic and adequacy of the site for loading/unloading vehicles
- e. Potential for future expansion of services beyond tire repair
- f. General compatibility of the project with the surrounding neighborhood

In addition to concerns, several attendees expressed support for the project, noting that redevelopment of the site would improve the area and contribute to neighborhood revitalization.

2. How concerns, issues, and problems were addressed:

a. Parking Reduction / Off-Site Parking Concerns

The Applicant explained that the operational characteristics of a tire service business differ from typical retail uses. The business operates with a limited number of employees (approximately 2–4 on-site at any time), and customer visits are short in duration and staggered throughout the day. Most customers drop off vehicles and leave rather than remaining on-site.

Based on these factors, the four (4) on-site parking spaces are sufficient to meet actual demand. The site has been designed to maximize functionality within the constraints of the 0.39-acre parcel, and no off-site parking is proposed or anticipated.

b. Noise and Light Pollution (24-Hour Operation)

The Applicant confirmed that all noise-generating activities, including tire installation and repair, will be conducted entirely within a fully enclosed building designed to meet or exceed the City of Mesa's minimum 25 dB sound attenuation requirements.

In addition, the majority of the operational tools used at this site have been upgraded to **electric-powered equipment**, which results in significantly lower noise levels compared to traditional air compressor-based tools. This transition further reduces operational noise at the source and enhances compatibility with nearby residential uses.

To further ensure compatibility with surrounding properties, the Applicant will implement a Good Neighbor Policy that includes on-site management during all hours of operation, proactive site monitoring, and a formal complaint response procedure to promptly address any concerns.

Exterior lighting will be designed and installed in compliance with City of Mesa standards and will incorporate shielded, downward-directed fixtures to minimize glare and prevent light trespass onto adjacent properties.

Collectively, these measures are intended to effectively mitigate potential noise and lighting impacts and ensure the operation remains compatible with the surrounding neighborhood, including during nighttime hours.

c. Existing Tire Shop Across the Street

The Applicant explained that the proposed use is consistent with the established commercial and automotive service character of the University Drive corridor. The presence of similar businesses in the area demonstrates that the location is appropriate for this type of neighborhood-serving use.

The project represents reinvestment into an aging and underutilized property and is intended to complement existing businesses while improving site aesthetics, safety, and functionality.

d. Tow Truck Traffic and Site Size Constraints

The Applicant clarified that the business is not intended to function as a high-volume towing or vehicle storage facility. Tow truck activity, if any, would be limited and incidental to the primary tire service operations.

Additionally, the Applicant provides **mobile tire repair services**, which significantly reduce the need for vehicles to be transported to the site. Many service calls—particularly during nighttime hours—originate from stranded motorists traveling along the nearby Loop 202 freeway corridor. In these cases, service is typically performed on-site at the customer's location, allowing the vehicle to return to operation without being brought to the property.

This mobile service component reduces site congestion, minimizes tow truck traffic, and limits the need for on-site vehicle staging.

The site design includes controlled ingress (University Drive) and egress (Longmore Road), along with internal circulation improvements to safely accommodate occasional service vehicles.

e. Potential Expansion of Services

The Applicant explained that the current request is specifically for a minor

auto repair/tire service use. Any future expansion or change in use would be subject to review and approval by the City of Mesa in accordance with zoning regulations and applicable conditions of approval.

This ensures that the use remains consistent with the approved entitlement and compatible with surrounding properties.

3. Concerns, issues, and problems not addressed and why

One meeting attendee expressed opposition to the project based on a general preference that no commercial businesses be located in proximity to residential neighborhoods.

The Applicant and development team respectfully acknowledge this concern. However, this objection is based on a broader land use preference rather than specific operational or site-related impacts of the proposed project.

The subject property is located along University Drive, a major arterial corridor, and is already designated and developed for commercial use under the property's existing OC zoning. As such, the proposed neighborhood-serving commercial use at this location is consistent with the City's General Plan, existing development patterns, and zoning regulations.

While the Applicant has incorporated multiple design features, operational controls, and Good Neighbor Policy measures to ensure compatibility with adjacent residential uses—including noise mitigation, lighting controls, and site improvements—these measures cannot fully address a position that is opposed to commercial land uses in general.

General Compatibility with Neighborhood:

The Applicant emphasized that the project includes significant site and building improvements, including enhanced landscaping, upgraded architecture, screening elements, and improved site organization. These improvements are intended to create a clean, professional, and visually appealing development that is compatible with both the adjacent residential uses and the commercial corridor.

Letters of Support and Positive Feedback:

The Applicant received a formal Letter of Support from the adjacent property owner located directly west of the subject site (1617 W University Drive). The property owner

stated they have no objection to the proposed rezoning and expressed support for the project.

The letter indicates that, after reviewing the proposal and Good Neighbor Policy, the adjacent owner is confident that the project will operate in a manner compatible with surrounding properties, with minimal impacts related to noise, operations, and site maintenance.

In addition, several attendees at the April 29, 2026 Neighborhood Meeting expressed verbal support for the project. Supportive comments noted that the redevelopment would:

- Improve the appearance of a currently underutilized site
- Contribute to the revitalization of the surrounding neighborhood and corridor
- Provide a useful, neighborhood-serving business in an appropriate location

Conclusion:

The Applicant has actively engaged with the surrounding community and provided detailed responses to all concerns raised. The project incorporates operational controls, site design improvements, and a Good Neighbor Policy to ensure compatibility with adjacent residential and commercial uses.

Feedback received includes both concerns—which have been addressed—and expressions of support, including a formal letter from the directly adjacent property owner. Overall, the project represents a reinvestment opportunity that will enhance the site, improve neighborhood aesthetics, and support a locally owned small business.

06/12/2025 Meeting Notice & Enclosures

June 2, 2025

Notice of Application for Rezone, Minor General Plan Amendment, and Bonus Intensity Zone Overlay (BIZ)

+/-0.39-acre Property Located at the southwest corner of Longmore and University Drive in Mesa
Case No ZON25-00110

Dear Property Owner (or) Interested Party:

Tres Hermanos, LLC has recently filed applications with the City of Mesa to allow an auto service center and tire shop at the southwest corner of Longmore and University Drive (the Property), as seen on the attached aerial map. The applications include a Minor General Plan Amendment, Rezone, and Bonus Intensity Zone Overlay. The purpose of this letter is simply to introduce ourselves and the project. You should be receiving future notifications regarding the City's planned review of these applications.

The application requests to rezone the Property from Office Commercial (OC) to Limited Commercial (LC) with a BIZ Overlay to accommodate the San Antonio Tire Shop. A Minor General Plan amendment is also requested to change the Property's General Plan Place Type from Urban Residential to Urban Center. The use is appropriate given the Property's location at the corner of an arterial street and will provide important services to residents in the surrounding area. As seen in the included renderings, the project will significantly improve the existing condition of the Property and enhance the aesthetics of the streetscape along both University Drive and Longmore.

We would like to invite you to a neighborhood meeting to learn about the project and provide an opportunity for comments or feedback. The property owner and development team will share details about the project design and operations and will be available to answer any questions you may have. The meeting will be held as follows:

Neighborhood Meeting

Date: Thursday, June 12, 2025
Time: 6:00 pm
Location: Webster Elementary School
Multi-Purpose Room
202 N Sycamore
Mesa, AZ

This letter is being sent to the neighboring property owners within 1000-feet, HOA's within 1/2-mile and City registered neighborhoods within 1-mile, as provided by the City. I would be happy to speak with you regarding these pending applications and any questions you may have. Feel free to contact me at (602) 770-5651 or e-mail at allrightbuilders@gmail.com. You may also contact the City of Mesa Planner assigned to this case, Emily Johnson, at (480) 644-3952 or emily.johnson@mesaAZ.gov. You will also receive future mailing notifications regarding the City's planned hearing schedule for review of these applications. Signs will also be posted on site with hearing information. Please note, no meetings or hearings are scheduled currently to review this project.

Sincerely yours,

Tami Price

2 de junio de 2025

Aviso de Solicitud de Rezonificación, Enmienda del Plan General Menor y Superposición de Zona de Intensidad de Bonificación (BIZ)

+/- 0.39 acre Propiedad ubicada en la esquina suroeste de Longmore y University Drive en Mesa
Caso N° ZON25-00110

Estimado Propietario (o) Parte Interesada:

Tres Hermanos, LLC ha presentado recientemente solicitudes ante la Ciudad de Mesa para permitir un centro de servicio de automóviles y una tienda de neumáticos en la esquina suroeste de Longmore y University Drive (la propiedad), como se ve en el mapa aéreo adjunto. Las solicitudes incluyen una Enmienda del Plan General Menor, una Rezonificación y una Superposición de Zona de Intensidad de Bonificación. El propósito de esta carta es simplemente presentarnos a nosotros mismos y al proyecto. Debería recibir notificaciones futuras sobre la revisión planificada de estas solicitudes por parte de la Ciudad.

La solicitud solicita rezonificar la propiedad de Oficina Comercial (OC) a Comercial Limitada (LC) con una superposición de BIZ para acomodar la tienda de neumáticos de San Antonio. También se solicita una enmienda menor al Plan General para cambiar el Tipo de Lugar del Plan General de la Propiedad de Residencial Urbano a Centro Urbano. El uso es apropiado dada la ubicación de la propiedad en la esquina de una calle arterial y proporcionará servicios importantes a los residentes de los alrededores. Como se ve en las representaciones incluidas, el proyecto mejorará significativamente la condición existente de la propiedad y mejorará la estética del paisaje urbano a lo largo de University Drive y Longmore.

Nos gustaría invitarlo a una reunión del vecindario para aprender sobre el proyecto y brindarle la oportunidad de hacer comentarios o retroalimentación. El propietario de la propiedad y el equipo de desarrollo compartirán detalles sobre el diseño y las operaciones del proyecto y estarán disponibles para responder cualquier pregunta que pueda tener. La reunión se llevará a cabo de la siguiente manera:

Reunión Vecinal

Fecha: Jueves, 12 de junio de 2025
Hora: 18:00 horas
Ubicación: Escuela Primaria Webster
Salón de usos múltiples
202 N Sicomoro
Mesa, AZ

Esta carta se envía a los propietarios vecinos dentro de los 1000 pies, a las asociaciones de propietarios dentro de 1/2 milla y a los vecindarios registrados en la Ciudad dentro de 1 milla, según lo dispuesto por la Ciudad. Estaré encantado de hablar con usted sobre estas solicitudes pendientes y cualquier pregunta que pueda tener. No dude en ponerse en contacto conmigo al (602) 770-5651 o enviar un correo electrónico a allrightbuilders@gmail.com. También puede comunicarse con la planificadora de la ciudad de Mesa asignada a este caso, Emily Johnson, al (480) 644-3952 o emily.johnson@mesaAZ.gov. También recibirá notificaciones futuras por correo sobre el calendario de audiencias planificado por la Ciudad para la revisión de estas solicitudes. También se colocarán letreros en el sitio con información sobre la audición. Tenga en cuenta que actualmente no hay reuniones ni audiencias programadas para revisar este proyecto.

**ZON25-00110 Meeting Notice Affidavit
Meeting Notice & Enclosures
Contact List**

City of Mesa Planning Division

**AFFIDAVIT OF NOTIFICATION LETTER
MAILINGS**

To be submitted to the Planning Division by **April 28, 2026**.

Date: April 27, 2026

I, Alex Hayes, being the owner or authorized applicant for the zoning case below, do hereby affirm that I have mailed notification letters regarding Case **ZON25-00110** on the 27th day of April, 2026.

These notifications were mailed to all property owners within the required radius of the subject site, as specified by City of Mesa Planning Division regulations.

Applicant's/Representative's signature: _____

SUBSCRIBED AND SWORN before me this 27th day of April, 2026.

Serena Chiaramonte
Notary Public

Case Number: **ZON25-00110**

Project Name: _____

April 27, 2026

Dear Neighbor:

We have applied for a rezone from Office Commercial (OC) to Limited Commercial with a Bonus Intensity Zone Overlay (LC-BIZ) and Site Plan Review for the property located at the southwest corner of University Drive and Longmore. This request will allow for an approximately 4,015± square foot Minor Automobile Repair facility. The case number assigned to this project is ZON25-00110.

This letter is being sent to all property owners within 500 feet of the Property at the request of the City of Mesa Planning Division. Enclosed for your review is a copy of the site plan and a rendering of the proposed development. If you have any questions regarding this proposal, please call me at (602) 230-0600 or e-mail me at hayes@wmbattorneys.com.

This application will be scheduled for consideration by the Mesa Planning and Zoning Board at their meeting held on May 13, 2026 in the Mesa City Hall located at 20 East Main Street. The meeting will begin at 4:00 p.m. You are invited to attend this meeting and provide any input you may have regarding this proposal.

The public can attend the meeting either in-person or electronically and telephonically. The live meeting may be watched on local cable Mesa channel 11, online at [Mesa11.com/live](https://www.mesa11.com/live) or www.youtube.com/user/cityofmesa11/live, or listened to by calling 888-788-0099 or 877-853-5247 (toll free) using meeting ID 825 0808 5605 and following the prompts.

If you want to provide a written comment or speak telephonically at the meeting, please submit an online comment card by scanning the QR code below or visiting <https://www.mesaaz.gov/government/advisory-boards-committees/planning-zoning-board/online-meeting-comment-card> at least 1 hour prior to the start of the meeting. If you want to speak at the meeting, you will need to indicate on the comment card that you would like to speak during the meeting, and you will need to call 888-788-0099 or 877-853-5247 (toll free) using meeting ID 825 0808 5605 and following the prompts, prior to the start of the meeting. You will be able to listen to the meeting; and when the item you have indicated that you want to speak on is before the Board, your line will be taken off mute and you will be given an opportunity to speak.

For help with the online comment card, or for any other technical difficulties, please call 480-644-2099.

The City of Mesa has assigned this case to Emily Johnson of their Planning Division staff. She can be reached at 480-644-3952 or emily.johnson@mesaaz.gov should you have any questions regarding the public hearing process. If you have sold this property in the interim, please forward this correspondence to the new owner.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Alex Hayes', located below the 'Sincerely,' text.

**GPA26-00111 Meeting Notice Affidavit
Meeting Notice & Enclosures
Contact List**

City of Mesa Planning Division

**AFFIDAVIT OF NOTIFICATION LETTER
MAILINGS**

To be submitted to the Planning Division by **April 28, 2026**.

Date: April 27, 2026

I, Alex Hayes, being the owner or authorized applicant for the zoning case below, do hereby affirm that I have mailed notification letters regarding Case **GPA26-00111** on the 27th day of April, 2026.

These notifications were mailed to all property owners within the required radius of the subject site, as specified by City of Mesa Planning Division regulations.

Applicant's/Representative's signature: _____

SUBSCRIBED AND SWORN before me this 27th day of April, 2026.

Serena Chiaramonte

Notary Public

Case Number: **GPA26-00111**

Project Name: _____

April 27, 2026

Dear Neighbor:

We have applied for a Minor General Plan Amendment to change the Placetype from Urban Residential to Urban Center for the property located at the southwest corner of University Drive and Longmore. This request will allow for an approximately 4,015± square foot Minor Automobile Repair facility. The case number assigned to this project is GPA26-00111.

This letter is being sent to all property owners within 500 feet of the Property at the request of the City of Mesa Planning Division. Enclosed for your review is a copy of the site plan and a rendering of the proposed development. If you have any questions regarding this proposal, please call me at (602) 230-0600 or e-mail me at hayes@wmbattorneys.com.

This application will be scheduled for consideration by the Mesa Planning and Zoning Board at their meeting held on May 13, 2026 in the Mesa City Hall located at 20 East Main Street. The meeting will begin at 4:00 p.m. You are invited to attend this meeting and provide any input you may have regarding this proposal.

The public can attend the meeting either in-person or electronically and telephonically. The live meeting may be watched on local cable Mesa channel 11, online at [Mesa11.com/live](https://www.mesa11.com/live) or www.youtube.com/user/cityofmesa11/live, or listened to by calling 888-788-0099 or 877-853-5247 (toll free) using meeting ID 825 0808 5605 and following the prompts.

If you want to provide a written comment or speak telephonically at the meeting, please submit an online comment card by scanning the QR code below or visiting <https://www.mesaaz.gov/government/advisory-boards-committees/planning-zoning-board/online-meeting-comment-card> at least 1 hour prior to the start of the meeting. If you want to speak at the meeting, you will need to indicate on the comment card that you would like to speak during the meeting, and you will need to call 888-788-0099 or 877-853-5247 (toll free) using meeting ID 825 0808 5605 and following the prompts, prior to the start of the meeting. You will be able to listen to the meeting; and when the item you have indicated that you want to speak on is before the Board, your line will be taken off mute and you will be given an opportunity to speak.

For help with the online comment card, or for any other technical difficulties, please call 480-644-2099.

The City of Mesa has assigned this case to Emily Johnson of their Planning Division staff. She can be reached at 480-644-3952 or emily.johnson@mesaaz.gov should you have any questions regarding the public hearing process. If you have sold this property in the interim, please forward this correspondence to the new owner.

Sincerely,

A handwritten signature in blue ink, appearing to read "Alex Hayes", located below the "Sincerely," text.

Affidavit of Public Posting

City of Mesa Planning Division

AFFIDAVIT OF PUBLIC POSTING

Date: 04/28/26

I, Meghan Liggett, being the owner or authorized agent for the zoning case below, do hereby affirm that I have posted the property related to case # ZON25-00110, and GPA26-00111, on SWC University Dr and Longmore. The posting was in one place with one notice for each quarter mile of frontage along perimeter right-of-way so that the notices were visible from the nearest public right-of-way.

**SUBMIT PHOTOGRAPHS OF THE POSTINGS MOUNTED ON AN 8.5”
BY 11” SHEET OF PAPER WITH THIS AFFIDAVIT.**

Applicant's/Representative's signature:

Letter of Support

April 28, 2026

City of Mesa Planning Division
55 N Center Street
Mesa, AZ 85201

Re: Letter of Support – ZON25-00110 (San Antonio Tire Shop)
1609 W University Dr (SWC University Dr & Longmore)

Dear Planning Staff,

I am writing as the adjacent property owner directly west of 1609 W University Drive regarding the proposed rezoning application ZON25-00110.

As the directly affected neighboring property, I want to clearly state that I have no objection to this project or the requested rezoning.

After reviewing the submitted materials, including the Good Neighbor Policy, I am confident the applicant has taken appropriate steps to ensure the business will operate in a manner compatible with surrounding properties.

The commitment that all noise-generating operations will occur within a fully enclosed building meeting or exceeding the City of Mesa's 25 dB sound attenuation requirements provides strong reassurance that impacts to my property will be minimal.

Additionally, the operational plan—including on-site management, adherence to City code, and prohibition of outdoor storage of automotive parts or vehicles—demonstrates a clear intent to maintain a clean, controlled, and professional site.

I also appreciate the inclusion of a direct complaint response process, ensuring any concerns can be addressed quickly and professionally.

Based on these considerations, and as the property owner most directly impacted by this project, I am comfortable with the proposed use and support approval of this rezoning request.

Sincerely, FAUSTO ROMAN Phone Number 480 495 3934

Owner – Property West of 1609 W University Dr
1617 W University Dr
Mesa, AZ 85201

April 29, 2026

To Whom it May Concern:

We are home owners and residents on West 5th street, just west of the location of the proposed changes. We have lived in the neighborhood for 12 years. We strongly oppose the zoning change from Urban residential to Urban center. We desire the area to remain focused on residential living catering to the needs of the families already residing in the many single family homes of the surrounding area. Changing the zoning is not in the interest of the current residents. We are not able to attend the informational meeting due to prior commitments, but wish to express our opposition to this suggested change.

Sincerely,

Dane and Melissa Spencer
dandmspencer@gmail.com

To: City of Mesa Planning and Zoning Board: Chair Benjamin Ayers, Vice Chair Troy Peterson, Boardmembers Jeff Pitcher, Genessee Montes, Jamie Blakeman, Jayson Carpenter, Chase Farnsworth

From: Tess Taylor, a Mesa resident and adjacent residential property owner

cc: Mayor Mark Freeman; Councilmember Francisco Heredia, Council District 3

Date: Friday, June 5th, 2026

Re: Opposition to proposed rezoning of San Antonio Tire Shop, Case Nos. GPA26-00111 General Plan Amendment and ZON25-00110, scheduled for public hearing before the Planning and Zoning Board on Wednesday, June 10th, 2026

Page 1 of 2

There is no legitimate basis for granting these applications for the following reasons, among others:

1. **Failure To Meet The Burden Of Proof:** The burden rests upon the applicant to demonstrate that the requested amendments and entitlements are justified and consistent with the public interest. That burden has not been met.
2. **Failure To Demonstrate Changed Circumstances Supporting A General Plan Amendment:** The record fails to identify any significant change in conditions, character, or circumstances that would justify overturning the City's adopted General Plan designation for the property.
3. **Failure To Demonstrate Consistency With The General Plan:** The application does not adequately demonstrate that requested amendments are consistent with the goals, policies, and planning framework established by the Mesa 2050 General Plan.
4. **Creation of An Isolated Urban Center Designation:** The proposed General Plan Amendment would create an isolated Urban Center designation that appears disconnected from surrounding land use pattern and raises significant planning concerns.
5. **Parcel-Specific Amendment / Spot Planning Concerns:** The request appears directed toward accommodating a single property rather than implementing a broader planning objective or area-wide policy consideration.

6. **Failure To Justify The Requested BIZ Overlay:** The application does not adequately demonstrate why the requested BIZ Overlay is necessary, appropriate, or consistent with the purposes for which the overlay was established.
7. **Lack of Objective Technical Analysis:** The record lacks sufficient parcel-specific technical analysis regarding traffic, circulation, parking, infrastructure capacity, operational impacts, and other matters necessary to support the requested findings.
8. **Incompatibility With Adjacent Residential Uses:** The application does not adequately demonstrate compatibility with nearby residential properties or address concerns associated with the proposed increase in development intensity.
9. **Failure To Demonstrate A Compelling Public Benefit:** The application identifies potential benefits to the applicant but does not establish a compelling public benefit sufficient to justify the requested departures from the City's adopted planning framework.
10. **Existing Noncompliance Should Not Be Rewarded:** Where questions exist regarding compliance with existing requirements, those matters should be fully resolved before consideration is given to expanded development rights and additional discretionary approvals.
11. **Extraordinary Discretion Should Be Earned:** The applicant seeks significant discretionary relief from the City's established land-use framework. Such relief should be granted only upon a clear evidentiary showing and substantial supporting analysis.
12. **Precedent And Long-Term Planning Concerns:** Approval would create precedent extending beyond this parcel and this applicant. The Board should carefully consider the long-term implications of approving the requested amendments and entitlements.

CONCLUSION

The applicant has failed to establish, through substantial evidence, that the requested General Plan Amendment, rezoning, BIZ Overlay, and related entitlements satisfy the findings required for approval.

Based on the facts and upon the current record, that proof has not been made and **cannot be made**.

Accordingly, we urge the Planning and Zoning Board to deny ZON25-00110, GPA26-00111 (General Plan Amendment), and all associated entitlement requests.

Thank you.

To: City of Mesa Planning and Zoning Board: Chair Benjamin Ayers, Vice Chair Troy Peterson, Boardmembers Jeff Pitcher, Genessee Montes, Jamie Blakeman, Jayson Carpenter, Chase Farnsworth

Re: Opposition to proposed rezoning of San Antonio Tire Shop, Case Nos. GPA26-00111 General Plan Amendment (Agenda Item 4-a) and ZON25-00110 (Agenda Item 4-b)

Page 1 of 10

There is no legitimate basis for granting these applications for the following reasons:

I. THE REQUIRED FINDINGS ARE NOT SUPPORTED

A. Failure to Demonstrate Significant Public Benefit. Mesa Zoning Ordinance §11-21 requires a BIZ Overlay to provide significant social or economic benefits to the City. The applicant has provided no economic impact study, fiscal analysis, employment study, or public-benefit analysis. The record contains no evidence demonstrating significant social or economic benefit to the City. The required finding cannot be made.

B. Failure to Demonstrate Need for a General Plan Amendment. The applicant has not demonstrated changed circumstances, planning necessity, public need, or any other basis requiring amendment of the General Plan. A General Plan Amendment is an extraordinary legislative action and should not be granted merely because it facilitates a particular proposal. The record contains no evidence that the General Plan is incorrect, outdated, or failing to serve its intended purpose. Indeed, the City of Mesa is in full compliance with its General Plan obligations to the State of Arizona. The General Plan is intended to guide long-term community development and should not be amended solely to accommodate a single development proposal. No such necessity has been shown.

C. Failure to Demonstrate the Proposed Amendment Advances General Plan Objectives. The applicant has not demonstrated how redesignating this parcel advances the objectives of the General Plan. The record contains no evidence that the proposed amendment addresses a deficiency in the Plan, responds to changed circumstances, or better implements the City's long-term planning vision. Rather, the proposed amendment appears primarily intended to accommodate a specific development proposal.

D. Failure to Demonstrate Consistency with the General Plan and Area Plan. The Staff Report repeatedly concludes that the proposal is consistent with the General Plan and West Main Street Area Plan. Those conclusions are largely unsupported by analysis. A 24-hour tire-service operation does not become a mixed-use or neighborhood-enhancing devel-

opment simply because landscaping, decorative walls, or public art are added. The record does not establish how the proposed use advances the objectives cited by staff, including enhancement of the existing environment, contribution to a mixed-use setting, projection of neighborhood identity, or implementation of General Plan Strategies N2, LU2, and LU3. Aesthetic enhancements do not, by themselves, establish that an intensified auto-oriented land use advances the objectives of the General Plan or the West Main Street Area Plan.

E. Failure to Demonstrate Consistency with General Plan Strategies N2, LU2, and LU3. The Staff Report cites General Plan Strategies N2, LU2, and LU3 in support of the proposal. Those strategies encourage infill and redevelopment that meet the community's strategic needs. The applicant has provided no evidence demonstrating a community need for another tire-service business, a 24-hour operation, or the requested intensification of this site. Encouraging infill does not eliminate the requirement to demonstrate public need, public benefit, or consistency with broader planning objectives. The cited strategies therefore do not support the requested approvals.

F. Unsupported BIZ Overlay Findings. Mesa Zoning Ordinance §11-21 states that the BIZ Overlay is intended to encourage unique, innovative developments of superior quality that provide significant social or economic benefits to the City. The proposal is a conventional auto-oriented tire-service operation. The record contains no evidence demonstrating a unique development, innovative development, superior-quality development, or significant public benefit warranting extraordinary zoning relief. The applicant has failed to demonstrate that this proposal satisfies the purpose and intent of the BIZ Overlay. The mere fact that a BIZ Overlay would facilitate the proposal does not establish that a BIZ Overlay is warranted. Extraordinary relief can only be granted through clear and compelling evidence, the burden of which applicant has not met.

G. Spot Planning and Isolated Designation Concerns. The proposed amendment appears tailored to a single parcel rather than a broader planning objective. The record contains no evidence demonstrating a corridor-wide planning need, area-wide planning objective, or changed circumstance supporting the requested amendment. Rather, the requested amendment appears intended to accommodate a specific development proposal that could not otherwise achieve its desired intensity under existing planning and zoning policies. Parcel-specific amendments unsupported by broader planning objectives should be viewed with caution.

H. Existing Tire-Service Market Saturation. The record contains no evidence demonstrating an unmet demand for additional tire-service facilities in the area. Existing tire-service providers already operate in close proximity to the subject property, including Pineda Tires, located directly across the intersection at 1555 W. University Drive and in operation since 2011. Public records indicate that applicant, doing business as Llantera San Antonio, already operates multiple tire-shop locations throughout Arizona, including a location on Broadway Road in Mesa only a short distance from the subject property (Exhibit E). Applicant has submitted no market study, demand analysis, service-gap assessment, or

other evidence demonstrating that additional tire-service facilities—or 24-hour tire-service operations—are necessary to serve the community. Accordingly, the application fails to demonstrate a public need for the requested General Plan Amendment, rezoning, and associated entitlements.

II. THE SITE IS UNSUITABLE FOR THE REQUESTED INTENSITY

A. Incompatibility with Adjacent Residential Uses. The proposal seeks to intensify an auto-oriented commercial use immediately adjacent to residential neighborhoods. The requested 24-hour operation is inherently less compatible with nearby residential uses than ordinary daytime commercial activity. Residential compatibility objections have not been adequately addressed.

B. Extreme Parking Reduction. The applicant proposes only four parking spaces where eleven spaces are required by the Mesa Zoning Ordinance, as reflected in the Site Plan and Staff Report. This represents a 64% reduction from the ordinance standard. No parking study, demand analysis, or operational analysis has been provided. The requested reduction is unsupported by substantial evidence. The applicant's own Good Neighbor Policy anticipates 2 to 4 employees on site during daytime operations, further raising questions regarding available parking capacity for customers, vendors, and service vehicles. (Exhibit A)

C. Constrained Site. The applicant admits in the project narrative that the property is "an undersized parcel that presents numerous development challenges." Rather than demonstrating that the site is suitable for the proposed use, the application seeks entitlements to overcome those limitations. On a parcel of only 0.39 acres, the applicant proposes intensified operations while reducing parking and setbacks, accommodating customer vehicles, service activities, circulation, landscaping, screening, and drainage requirements. The requested relief appears driven by site limitations rather than planning merit.

D. Entitlements Run With the Land. The Board would not be approving a person; it would be approving permanent development rights. Future owners would inherit the requested entitlements but not the applicant's promises. The application should be judged by what it would allow, not by assurances that may not bind future operators. Statements, assurances, and representations made during the application process are not binding on future owners and are generally unenforceable.

E. Lack of Operational Analysis. The record contains no meaningful analysis of:

- customer demand;
- overnight activity;
- vehicle staging;
- circulation impacts;
- parking utilization; or
- operational intensity.

The Board lacks sufficient evidence to conclude that the proposed intensity can be accommodated on the site.

F. Residential Impacts Are Minimized in the Staff Report. The Staff Report largely ignores residential incompatibility of the proposed project and offers alleged and inadequate aesthetic improvements in its place. Noise and lighting intrusions, worsening traffic impacts, inadequate parking, persistent 24/7 vehicle activity, and disruptive late-night operations are central adverse impacts which disqualify the entire project from approval.

III. PROPOSED PROJECT MOVES AREA IN THE WRONG DIRECTION

A. Not the Type of Project Intended for BIZ Overlay Treatment. The BIZ Overlay was created to encourage exceptional development that provides significant public benefit. The proposal seeks extraordinary zoning relief for a conventional auto-oriented use. The record does not demonstrate the exceptional circumstances necessary to justify such discretion.

B. Unacceptable Auto-Oriented Intensification. The proposal increases the intensity of an existing vehicle-service use while seeking reduced development standards. This moves the corridor toward greater concentration of auto-oriented or similar uses rather than toward the mixed-use environment described in the City's planning documents.

C. Further Incremental Erosion of Corridor Character. Planning decisions must be evaluated cumulatively. Approval of increasingly intensive auto-oriented and similar uses gradually alters neighborhood character and undermines long-term planning objectives. The Board should consider not only this application, but the direction in which it moves the corridor.

D. Long-Term Precedent Concerns. Approval would establish precedent for similar requests seeking intensified auto-oriented uses; reduced, unenforced or ignored established standards; and expanded operational concentration. The Board should carefully consider the long-term implications for future land-use decisions within the corridor.

IV. REBUTTAL TO CITIZEN PARTICIPATION REPORT

This Citizen Participation Report ("Report") demonstrates that residents at the April 29th, 2026 Neighborhood Meeting raised substantial objections regarding parking, 24-hour operations, noise and light intrusions, compatibility with adjacent residential neighborhoods, the need for the requested entitlements, and the overall intensity of the proposed use. It does not demonstrate that those objections were resolved. Instead, the Report largely records the applicant's responses to those objections, unsupported by independent studies, objective analysis, or substantial evidence. Assertions are not evidence, and repeating an applicant's explanation does not establish that the explanation is correct or that the objection has been addressed. The Report references expressions of support. However, support or opposition does not establish the findings required for approval. The Board must determine whether the required findings are supported by substantial evidence in the record, not by counting supporters and opponents.

The Report also mischaracterizes the basis for neighborhood opposition. Opposition is not based on a general objection to commercial uses near residential neighborhoods. Rather, it is based on the applicant's failure to demonstrate public need, significant public benefit, justification for the requested entitlements, adequacy of the proposed parking reduction, and compatibility of 24-hour operations with nearby residences. These adverse impacts would be cumulative, permanent, and borne primarily by surrounding residents.

Accordingly, the Report should be viewed as a summary of comments and applicant responses, not as evidence that the objections raised by residents have been resolved or that the required findings for approval can be made.

CONCLUSION

The applicant seeks a General Plan Amendment, rezoning, BIZ Overlay, substantial parking reductions, and 24-hour operations. The record contains no substantial evidence demonstrating public need, significant public benefit, consistency with the General Plan, consistency with the West Main Street Area Plan, or operational necessity for the requested entitlements. The site is unsuitable for the requested intensity. The proposal moves the corridor away from, rather than toward, the vision expressed in the City's planning documents.

Approval would require the Board to make multiple findings that are unsupported by substantial evidence in the record. The applicant bears the burden of establishing each required finding through substantial evidence in the record.

That burden has not been met.

Based on the facts and upon the current record, that proof has not been made and **cannot be made**.

Therefore, we urge the Planning and Zoning Board to deny ZON25-00110, GPA26-00111 (General Plan Amendment), and all related entitlement requests.

Exhibit A
Parking Reduction and Operational Assumptions

San Antonio Tire Shop

SWC University Drive and Longmore
ZON25-00110

Good Neighbor Policy

Purpose:

The purpose of this Policy is to establish the Good Neighbor guidelines for the San Antonio Tire Shop proposed at the southwest corner of University Drive and Longmore.

Operations:

The San Antonio Tire Shop provides tire services for a variety of vehicles, including tire sales, installations, rotations, and repairs. All noise generating operations, including installations and repairs, will be conducted within the fully enclosed building to mitigate potential impacts to adjacent properties. The building construction meets or exceeds the minimum 25 dB sound attenuation requirement per Section 11-30-9(F)(4) of the Mesa Zoning Ordinance.

The business will be open 24 hours a day with a manager present during all hours of operation. It is anticipated that during the day there will be anywhere from 2-4 employees on site at any given time. The site will be maintained per the City of Mesa code at all times.

Litter Control Measures:

Maintaining a clean outside appearance not only provides a higher level of customer service, it also is an effective tool for employees to continuously monitor onsite activities. No used or discarded automotive parts or equipment or disabled, junked, or wrecked vehicles will be stored outside of the building.

Complaint Response Procedures:

Customer service and community responsiveness is a top priority for the San Antonio Tire Shop. On-site managers will be responsive to any comments or complaints from customers, neighboring residents, or City Inspectors to remedy any situation. The contact information provided below may be utilized for prompt and professional resolution.
