

City Council Report

Date: November 4, 2024
To: City Council
Through: Marc Heirshberg, Deputy City Manager
From: Beth Huning, City Engineer
Marc Ahlstrom, Assistant City Engineer
Subject: Extinguishing a Temporary Drainage Easement located on the south side of the 10000 block of East Hampton Road
Council District 6

Purpose and Recommendation

The purpose of this report is to consider staff's recommendation to extinguish a temporary drainage easement located on the south side of the 10000 block of East Hampton Road.

Background

Temporary drainage easements are dedicated to the City of Mesa to allow for the retention of storm water drainage from the public rights-of-way on private property. When an easement is no longer needed, or conflicts with new development, the City Council may extinguish the easement to provide owners with the ability to fully utilize their property. To remove an easement from a property's title, the City Council may approve a Resolution to extinguish (abandon) the easement in accordance with provisions in the Mesa City Code, Title 9, Chapter 10.

Discussion

The temporary drainage easement requested for extinguishment was recorded in document number 2007-1251251, records of Maricopa County, Arizona. The property owner is requesting the City extinguish the temporary drainage easement to allow for the development of the lot. The property owner has dedicated a new drainage easement. Therefore, staff has determined that the temporary drainage easement to be extinguished is no longer needed.

Alternatives

An alternative is to not extinguish the temporary drainage easement. Choosing this alternative will result in the property owner not being able to develop the property as planned.

Fiscal Impact

The fiscal impact of this request is the \$750.00 processing fee paid by the owner.

Coordinated With

The Development Services and Engineering Departments concur with this request.
