

City Council Report

Date: July 1, 2024
To: City Council
Through: Marc Heirshberg, Deputy City Manager
From: Beth Huning, City Engineer
Marc Ahlstrom, Assistant City Engineer
Subject: Reconstruct Anzio Ramp
City Project No. CP0993
Council District 5

Purpose and Recommendation

The purpose of this report is to provide information to Council concerning the results of the bids received for the Reconstruct Anzio Ramp project at Falcon Field Airport (See Exhibit "A" for the project location).

Staff recommends that Council award a contract for this project to the lowest responsible bidder, NEVE, LLC., in the amount of \$362,729.00, and authorize a change order allowance in the amount of \$36,272.90 (10%).

Background

Anzio Ramp was originally constructed in 1992 and provides airport access to adjacent hangars. An analysis of the pavement condition indicated that "Routine Maintenance" is no longer a sufficient solution to protect the current pavement and extend its longevity. Design investigation determined that full reconstruction of the pavement section is necessary.

Falcon Field Airport received an Arizona Department of Transportation (ADOT) Grant for the design and construction. The grant covers 95% of the total project cost.

Discussion

Replacing the ramp pavement section will improve safety for aircraft and adhere to the airport's Pavement Maintenance Program.

Community Impact – The Anzio Ramp and Anzio Taxilane will be closed to aircraft and vehicles during construction.

Once underway, construction of this project is anticipated to last no more than 2 months.

Alternatives

An alternative to this project would be to not construct these improvements. This is not recommended given the poor condition of the existing asphalt pavement. Also, the ADOT grant has already been awarded to the City of Mesa.

Fiscal Impact

The total authorized amount recommended for this project is \$399,001.90, based on the lowest responsible bid of \$362,729.00, with an additional \$36,272.90 (10%) as a change order allowance. This change order allowance will only be utilized for approved change orders.

This project is funded by the ADOT Grant and Falcon Field Airport.

Coordinated With

The Falcon Field Airport concurs with this recommendation.
