CITIZEN PARTICIPATION FINAL REPORT

FOR

HAWES CROSSING

A Planned Area Development in Mesa, Arizona

1,131.5 acres generally west of Ellsworth Road to the 80th Street alignment and from north of Elliot Road to south of Warner Road

October 9, 2019

Overview

This report provides results of the implementation of the Citizen Participation Plan for Hawes Crossing, a proposed Planned Area Development (PAD) in Mesa, Arizona. The site consists of 1,131.5 acres located generally west of Ellsworth Road to the 80th Street alignment, and from north of Elliot Road to south of Warner Road. The purpose of this report is to describe actions taken by the applicant to provide citizens, neighbors, public agencies and interested persons notifications and information such that they have had adequate opportunity to learn about and comment on the proposed Hawes Crossing PAD (the “Project”). Comments, sign-in lists, petitions, letters, summary sheets, and other materials are attached.

Notification Details

SCHOOL DISTRICT NOTIFICATION

North of Warner Road, the subject site is located within the Gilbert Public Schools District. On May 11, 2018 the applicant contacted the listed Superintendent via phone and email describing the request and asking for an adequate facilities determination. On May 21, 2018 the Superintendent responded via email indicating that the Gilbert Public Schools District does have adequate facilities for both K-6 and high school students given in the request. This information is included as **Attachment A** of this report. The applicant again reached out to the school district on October 4, 2019, where the Assistant Superintendent indicated that the previous determination was still accurate and the District was trending in an enrollment decline. A letter of this position is currently being pursued and will be supplemented as needed.

South of Warner Road, the subject site is located with the Queen Creek Unified School District. Initial phone and email contact were made to Queen Creek Unified School District’s Chief Financial Officer describing the proposal on May 15, 2018. This correspondence resulted in a determination of adequate facilities with accompanying executed donation agreements in September 20, 2019.

NEIGHBORHOOD MEETING NOTIFICATION

The following are dates and locations of all meetings where neighbors were invited to discuss the applicant’s proposal, followed by a summary of each meeting. Sign in lists and other feedback are attached.

Neighborhood Meeting – October 4th, 2017

Summary: On September 16th, 2017, letters were mailed to property owners within 1,000 feet, and HOAs within a half a mile, of the Project informing them of a neighborhood meeting to be held on October 4th, 2017. The letter was sent to the owners of 466 properties, as well as to the Eastridge Community Association, Villages at Hawes Homeowners Association, and Boulder Creek Homeowners Association as required by the City of Mesa Notification guidelines. It included a map of the Project area as well as aerial imagery of the existing condition of the site.

The meeting took place on October 4th, 2017 in an open house format at the Boulder Creek Elementary School from 6:30PM to approximately 8:00PM, with 40-50 people in attendance. From the applicant team, Darrell Wilson with Hilgart Wilson Engineering, and Cameron Carter, Thomas Galvin, and Nick Labadie with Rose Law Group were in attendance. The applicant team walked attendees through each of the prepared presentation boards describing the Project and answering questions.

Results Achieved: The initial notification letter informing neighbors of the meeting generated a lot of positive interest in the Project, with many neighbors stating they would be in support of the proposal. The neighborhood meeting was well attended and provided us with valuable feedback that was incorporated into the planning efforts going forward. Many neighbors completed written comment cards. A summary of neighbor phone calls following the notification letter, comments at the meeting, and comment cards provided is included below.

Summary of citizen concerns or issues: The applicant team received many phone calls and emails from neighbors following the first notification letter and addressed their questions and comments as they were received. At the neighborhood meeting, the applicant team actively answered questions and encouraged neighbors and interested stakeholders to stay involved. These communications are detailed below:

Phone calls and emails:

9/28/17 – Fred and Alvina Foord (8433 E. Peralta Ave.) emailed to say that they “feel the development of a new community as described in your letter would be an excellent idea” and went on to ask “if there is anything that you require from us to assist in this project receiving approval.” We will of course continue to be in touch with the Foords as the Project moves forward.

9/27/17 – Alan McDonald, based out of Utah but owning property in the area, emailed to say his group is “excited to hear about the development groin on and hope it gets things moving out in that area.” Alan also said we should feel free to contact him as necessary.

9/27/17 – Ardith Hoodenpyle (3256 S. 80th St.) called to say that she is very happy that there will be new development in the area in place of the dairies.

9/28/17 – Bob King (11846 S. 202nd Pl.) called to express his dislike for the dairies and say that he hopes this project is approved sooner than later so the dairies go away.

9/29/17 – Teresa Mau (multiple properties near 3556 S. 80th St.) called to say she is very interested in what is being proposed and likes the idea of development in the area. She was unable to come to the neighborhood meeting but would like to come in to our office to learn more about the Project.

9/20/17 – Gordon Bluth called to express his interest in the Project and how it would benefit the land he owns in the area.

9/21/17 – Irene Pfannenstiel (8432 E. Pampa Ave.) called to say that she is very excited for the proposed development and can’t wait for construction to start. She is particularly excited for commercial and retail uses to be built.

Comment cards:

- Gwen Gunn – “Dairies need to go!...Too many cows in such a small area. The cesspools are absolutely disgusting – the smells are horrible.”

- Wayne Carr – “This would be amazing for this area. It would produce jobs and parks and more family friendly environment.”
- Chris Diepstraten – “I would love to see the Rijlaarsdam dairy move...the flies make it very miserable to live here...if the dairy doesn’t move I’m going to.”
- Angie Jeppesen – “I really appreciate how thorough you were in explaining all of the development plans. I feel like this has been well thought through and would greatly benefit those of us already living in the surrounding areas, as well as those that will be living in the new development.”
- Patti Myaer – “Looks like a great project. Very well planned I hope it goes through and happens for all our community.”
- Diane Pennel – “I fully support this project. It will bring increased revenue to Mesa. I am also largely concerned with the odor and bugs generated or coming from the dairy farms.”
- Tawni McBee – “Why & how – if the properties across 80th at Paloma South have to be light industrial do to the airport, how/why can there be housing where the dairy farms are? If it’s possible, then the other properties should be returned to residential/commercial.”

Neighborhood Walking Outreach – February 2018 to April 2018

Summary: In February of 2018, we began walking the Boulder Creek neighborhood in order to meet neighbors, share information about the Project with them, and answer questions. We provided details on the proposal and provided everyone we talked to with means of staying informed as the Project progressed.

Results Achieved: After several weeks of walking the neighborhood we were able to reach nearly every resident in Boulder Creek to let them know about the Project and that they had the opportunity to participate if they wanted to. As evidenced by over 600 supporters, the neighbors nearest to the project are overwhelmingly in support and would like to see it approved. Despite significant effort, we were not able to reach every home to discuss the project. The email addresses we collected during this outreach effort proved to be a valuable resource later to ensure that interested neighbors were informed of upcoming HOA meetings and additional neighborhood meetings where they could get updates and ask questions.

2. Support Petition

HOA Meeting – April 12th, 2018

Summary: Prior to Boulder Creek's April 12th HOA meeting, we were contacted by Emily Ottens, Community Association Manager for the HOA. Emily informed us that she had been receiving a significant amount of questions and interest about the Hawes Crossing proposal and invited us to present at their April 12th HOA meeting. We agreed and presented on the Project on April 12th to approximately 20 Boulder Creek homeowners. While some were hearing about the proposal for the first time, the majority of the homeowners were familiar with the Project.

Results Achieved: Some of those attending this HOA meeting did not make the October 4th, 2017 neighborhood meeting and only knew about the Project through our email communication, from their neighbors, or from the HOA. Here, Boulder Creek homeowners learned more about the Project and were overwhelmingly supportive.

Summary of citizen concerns or issues: We received questions and comments about the proposal. Some of them are included below.

- What the specific boundary of the proposal was?
- Timeline
- If the proposal was pushing the dairy families out
- What uses/zoning would be allowed behind their homes – they want similar their own homes.

Comment Cards:

- Gwen Gunn – “I would like to see test results of air quality. Methane, ammonia, dust, diseases carried and transmitted by flies.”
- Jason Cane – “Please rezone the dairies.”

2. Comment Cards

Neighborhood Meeting – September 25th, 2018

Summary: On September 10th, 2018, letters were mailed to all property owners (700+) in the Boulder Creek community notifying them of the upcoming meeting, which is currently the only community that will share a property line with the proposed development. Additionally, an email blast from the HOA was initiated in order to capture as many residents as possible. This letter included a map of the Project area as well as aerial imagery of the existing condition of the site. Phone calls were also made to all stakeholders indicating they would like to be made aware of meetings and opportunities to participate in the process.

The neighborhood meeting was held on September 25th, 2018 at Boulder Creek Elementary School from 6:30PM to approximately 8:00PM. There were 58 people who signed in at the meeting and many who did not sign in. Additionally, in attendance were members of the applicant team, Councilman Kevin Thompson and his Chief of Staff.

Results Achieved: This highly attended meeting presented an additional opportunity, beyond the rezoning process requirement, for the residents and Councilmember to interact and come together. It was made clear

at this meeting that there was immense support and excitement for the Project. Following this meeting, the applicant team began receiving regular phone calls and emails requesting updates on the project.

Summary of citizen concerns or issues: The applicant team gave a presentation on the Project and offered a question and answer session where many residents elected to participate. Below is a summary of those discussions:

- Concerns regarding smells, flies, and birds negatively impacting their daily lives
 - Response: the neighbors were informed that the proposal will allow the dairies to relocate, which will result in the smells, flies, and birds going away.
- Requesting residential buffering adjacent to the Boulder Creek neighborhood
- The neighbors don't want to push the dairymen out
- Why is there political resistance for this plan?
 - Response: Councilman Thompson verbally confirmed that he is now in support of the land use plan being presented for the property. He talked about how much employment was added to the original plan. He also indicated he wants to support what Boulder Creek residents want.
- When will the dairies leave?
 - Response: soon after the approval of entitlements.
- Is State Land involved in this application.
 - Response: Yes. Their land is included in this application.
- Is the Arizona Dairy Co. (SWC Elliot Rd. & Sossaman Rd.) included in this project?
 - Response: No, but Councilman Thompson said that he thought they were working to sell their land to a potential non-dairy buyer.
- What do the different yellow/brown colors mean on the map?
 - Response: Yellow and brown indicate residential land use designation. The darker the color the more homes will be permitted. The lightest color is slightly less dense than Boulder Creek, the medium is comparable, and the dark is higher density/multi-family.

1. Notification Letter
2. Neighborhood Meeting Sign-in Sheet
3. Neighborhood Meeting Comment Cards

HOA Meeting – June 13, 2019

Summary: The Boulder Creek HOA again allowed us to present an update on the Project at their June 13th HOA meeting. The HOA sent an email to its homeowners letting them know we would be coming to present, and that they should attend if they had any questions or concerns. We also sent an email blast to Boulder Creek residents informing them that we would be there prepared with presentation boards, information, and ready to answer their questions. Approximately 15 people were in attendance, including the board members. Those attending were supportive of the Project.

Results Achieved: Following the April 12th, 2018 HOA meeting, we found that neighbors were still actively interested in the progress of the Project and wanted to meet with us again in person. Presenting at the HOA meetings offered an additional opportunity for neighbors to stay involved in the Project and make sure their

comments were heard by the applicant. The HOA board at this meeting asked that we stay in touch with the neighbors which we promised we would do.

Summary of citizen concerns or issues: Comments by those attending generally included the following.

- Was there any opposition to this plan?
 - Response: We explained that the Economic Development Board stated they did not support the proposed plan because it included residential zoning near Boulder Creek.
- When are the dairies leaving?
 - Response: The dairies will be leaving soon after they receive the rezoning.
- What type of density and housing product is included?
 - Response: We are proposing the same lot size and density near your homes. Near arterial roadways the density would increase.
- We don't want to see apartments.
 - Response: Areas allowing apartments would only be located in the multi-family and mixed-use areas. The trend nowadays in apartments is more luxury with lots of amenities.

HOA Meeting – September 12, 2019

Summary: The Boulder Creek HOA again allowed us to present an update on the Project at their September 12th HOA meeting. The HOA sent an email to its homeowners letting them know we would be coming to present, and that they should attend if they had any questions or concerns. On August 27, 2019 we sent an email blast to Boulder Creek residents informing them that we would be there prepared with presentation boards, information, and ready to answer their questions.

There were 14 people in attendance including the board members. We began with an update on the Project, answered questions, and provided our contact information.

Results Achieved: The presentation was successful as it provided interested neighbors another opportunity to hear about the Project. The HOA informed us that they had been receiving emails asking about the Project that they responded to with our contact information, and with details about meeting us in person at the HOA meeting. Even though this process has taken a long time, the neighbors are still very supportive of the Project and look forward to the changes it will bring for the area.

Summary of citizen concerns or issues: The HOA board and homeowners in attendance asked the following questions.

- When can we expect this to be done?
 - Response: We explained that we're on track to have hearings at the end of this year.
- What was that group that opposed the project?
 - Response: We explained that the Economic Development Board, which is tasked with maximizing employment, opposed the Project because they wanted all industrial development, including along the Boulder Creek Border, and that our proposal was a mix of uses but with residential along the border of Boulder Creek.
- What about the properties outside of the dotted line?
 - Response: These are private owners not part of this plan.
- What can we do to support?
 - Response: neighbors are welcome and encouraged to participate in the process by reaching out to City officials and attending public hearings.

Open House – September 14, 2019

Summary: On August 27, 2019 we sent an email blast to our list of email contacts including Boulder Creek residents, surrounding property owners, and other interested parties inviting them to an informal open house on September 14th, 2019 at the Boulder Creek Elementary School. Details of the open house were also emailed by the Boulder Creek HOA to all homeowners in their file. The purpose of this open house was to offer neighbors and interested parties an opportunity to learn more about the Project on a Saturday morning, rather than during the week like most meetings.

At the open house we set up a number of presentation boards displaying the subject site and aerials, existing zoning, proposed zoning, and other information about the project. Approximately 50 people attended, the majority of which were Boulder Creek residents. In addition, the Sonoran Springs HOA president was in attendance. The overwhelming majority of those in attendance shared their support for the project and asked to stay involved. There was no opposition to the Project shared by anyone attending the meeting.

Results Achieved: The open house was successful as many neighbors thanked us for holding a meeting on a Saturday. We heard that neighborhood meetings during the week have been difficult for parents since they want to get home to their children. Several parents brought their children to the open house. We also found that many attendees recently moved into the neighborhood and appreciated the opportunity to learn about what was going on and to get involved.

Summary of citizen concerns or issues: We described each of the presentation boards and the proposal in detail, and answered questions. The common questions were the following:

- What are you guys doing here?
 - We described the Hawes Crossing proposal in detail, what it would change for the area, and why it was important neighbors were informed.
- When can we expect this to happen and what is holding it up?
 - We explained to the neighbors that because this was such a large project with a number of stakeholders, there have been some delays along the way. We assured them that the applicant team and its consultants, the City, the State, and other stakeholders have been working hard and we expect to have final hearings before the end of the year.
- Is there any push back against the project?
 - We explained that there were some parties opposing the Project and preferred to see more commercial and industrial uses in the area along the southern border of Boulder Creek, but residents in the area have been overwhelmingly in support.
- Why would the city want industrial close to our neighborhood which we don't want?
 - We explained that placing industrial uses south of Boulder Creek would increase the total industrial zoning areas for the Project, thereby increasing employment opportunities.
- What can we do to help?
 - We let the neighbors know that their participation in this public zoning process is helpful and encouraged, and that they could share their thoughts with the City.

Attached as **Attachment F**:

1. Sign-in sheet

Conclusion

The applicant has executed the City of Mesa required citizen participation efforts for the rezoning application and has timely corresponded with hundreds of interested residents and property owners by email and telephone, and at various neighborhood meetings, HOA meetings, and an open house. The applicant has addressed their comments and concerns in the current proposal by proposing compatible and transitional zoning from the shared property line to the north. Additionally, a balanced mix of uses is proposed in order to encourage a truly mixed-use development, similar to Gilbert and Chandler that was consistently mentioned by residents as something they desired. The applicant has also incorporated pedestrian and vehicular opportunities to the adjacent neighborhood in order to connect communities and provide seamless access. Lastly, landscape buffers along the perimeters of the Project have been designed to sensitively incorporate new uses with those existing today. This results in a comprehensive application supported by the overwhelming majority of the surrounding area.

Subject: RE: Inner Loop Rezoning; Adequate Facilities

Hello again,

I spoke to your assistant last week, but wanted to check in and see if you had a chance to review the items I had sent? Please respond if you believe Gilbert School District will have adequate facilities, or if you don't believe you will please let me know when we can set up a time to discuss other options.

Thanks,

GILBERT SCHOOL DISTRICT

Action Items

Get more add-ins

Thank you so much for talking with me this morning. I apologize again for all of the back and forth missing each other!

As discussed with you this morning, our District is faced with a growth rate of greater than 10% per year, which is causing enrollment to grow by larger than the size of an elementary school per year, which is great! However, as I mentioned over the phone, we are struggling to maintain capacity within our schools, even with building new facilities. Your document images show that a small parcel of the property will include residential within our District boundaries. We are happy to accommodate the students that will come with that development, and ask that a voluntary donation be made, to help offset some of the costs of that accommodation. As I mentioned, this is voluntary, but it would help tremendously with the growth needs that additional students bring.

We have one of the highest academic standards in curriculum, and have some of the highest rated schools. We are proud of our achievements and the services we provide students. I am sure that the families moving in would see our District's educational and career oriented leadership as a positive reason to move into the community!

I have attached the template for donations, as well as the donation request which we use for our entire District for developers moving into our boundaries. Please feel free to share with your client, and I would be happy to meet with them at any time to further clarify this request.

Thank you for your time, have a fantastic weekend!

Queen Creek Unified School District Developer/Home Builder Donation Agreement Summary

Assistance by Developers/Home Builders Rationale:

The Queen Creek Unified School District is committed to providing the highest quality education to its students and to providing safe, well-constructed buildings that are equipped with the technology needed for student's future success.

We request that all developers and/or homebuilders consider participating in building our school community through either:

Land donation depending on students to be generated by the project

OR

Donation per home

Single Family Home	\$1,000
Townhouse, Cluster Home, Condominium, Apt.	\$400

These contributions will be used to assist in the cost of capital expenditures related to constructing new buildings, furniture, equipment, technology, textbooks, enhanced safety features, school buses. The District does not receive adequate or timely funding from the State assistance for these types of expenses so our partnership with developers/home builders is critical to providing the strong educational foundation we want for our current and future students.

Contribution Details:

The agreement will be recorded with the property in the Official Records of Maricopa County. This ensures that the final responsibility for paying the donation transfers to the entity building the dwelling unit. Contributions are payable within 10 days of building permit issuance for each dwelling unit. Checks are to be payable to Queen Creek Unified School District at the time the building permit is issued by the municipality. Checks are to be mailed to the attention of Crystal Zachary, CFO, Queen Creek Unified School District, 20217 E. Chandler Heights Rd, Queen Creek, AZ 85142.

DONATION AGREEMENT

This Donation Agreement ("Agreement") by and between QUEEN CREEK UNIFIED SCHOOL DISTRICT NO. 95 ("District") and Billy Wilson D. Maricopa, Arizona limited liability company ("HomeBuilder/Developer") concerning the development in the City of Mesa, commonly known as the Inner Loop Master Planned Development is effective as of 6-21-18.

WHEREAS, the HomeBuilder/Developer desires to obtain regulatory approvals from the City of Mesa in connection with the development commonly known as The Inner Loop Project, and

WHEREAS, a portion of the property within The Inner Loop Project is located within the boundaries of the District, which property is legally described in Exhibit A, attached hereto and incorporated herein by reference (the "Property").

WHEREAS, the development of the Property will increase the population of students attending public schools thus increasing the need for public school facilities, equipment, furnishings and maintenance and operations.

WHEREAS, the District desires that (HomeBuilder/Developer) contribute to the impact of growth on the school system.

NOW THEREFORE, intending to be legally bound for valuable consideration, the receipt and sufficiency of which are acknowledged, the parties agree as follows:

- (HomeBuilder/Developer) agrees to pay District a maximum sum of up to \$953,000 (the "Maximum Donation Amount") for a planned subdivision of up to 953 units.
- District acknowledges that the final approval by the City of Mesa may be greater or less than 953 units. Accordingly, the Maximum Donation Amount will be adjusted pro rata based on the actual number of dwelling units actually constructed within the Property multiplied by the amounts set forth in Section 3 below.
- Payment to the District is to be made no later than 10 days following the issuance of the building permit for each dwelling unit in the amount of \$1,000 per single family homes and/or \$400 per townhouse, cluster homes, condominium, apartment.
- In exchange for the payment under this Agreement, the District will provide information to the City of Mesa in connection with City of Mesa approvals regarding the school district's lack of opposition to the project and desire to accommodate the students generated from this development.
- The rights established under this agreement attach to and run with the Property. All of the provisions hereof are binding and shall inure to the benefit of the parties and be binding upon the successors and assigns of the parties hereto and Developer's rights and obligations hereunder shall be assigned to a person or entity that has acquired the Property or a portion thereof without the need for any additional writing or recording.
- This Agreement is subject to A.R.S. 38-511.

Dear Property Owner or Resident

We represent the families that own the dairies near the Loop 202 and Elliot and Warner Roads who are in the process of planning a master planned community that would be developed where their dairies and the State Land are currently located (see reverse for map of area). The families have assembled a team of the best development consultants to work closely with the City and community to create integrally connected neighborhoods, commercial areas, employment centers and parks, trails and open space that will be an asset to the entire area and a new East Valley destination. The nature of the operation of the dairies is such that they are at a point where they must either reinvest millions of dollars to continue operating in their current location for another 20-30 years or more, or they can invest in planning an evolution of the land uses into an incredible new community. They are hoping to do the latter and want to get your input.

The planning process is in the very beginning stages, and an official application to the City of Mesa has not been made, but we wanted to open the lines of communication and provide information to the public. Therefore, you are invited to attend an open house (details below) where we will provide information on the proposed project, display initial plans, and collect feedback, comments and thoughts from the public.

OPEN HOUSE

Boulder Creek Elementary
Multipurpose Room

8045 E. Portobello Avenue, Mesa, Arizona 85212

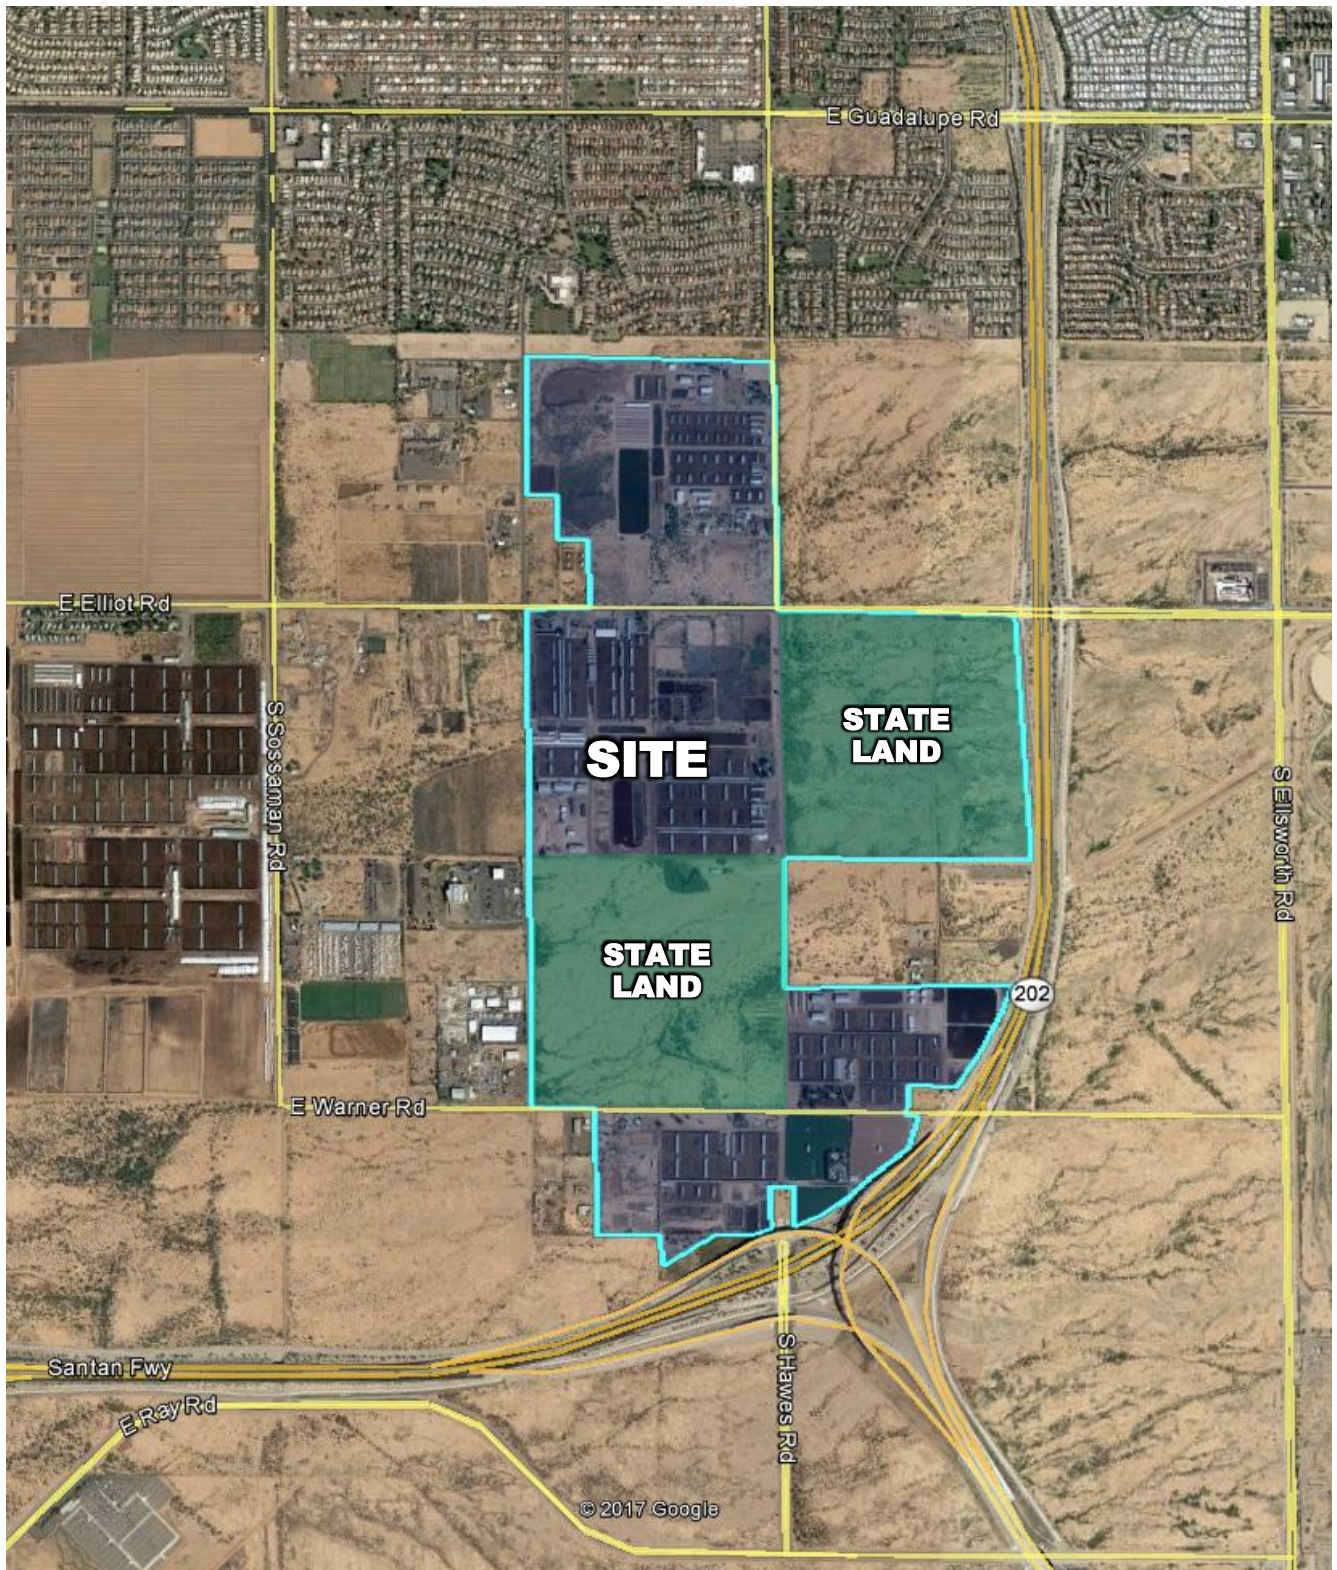

Wednesday, October 4, 2017

6:30PM – 7:30PM

If you have any questions or are unable to attend, please feel free to contact me directly at 480-240-5640 or nick@roselawgroup.com to discuss the project in more detail. Thank you for your time.

Sincerely,

Nicholas Labadie

COMMENT CARD

We would love to hear your thoughts on the Inner Loop project.

Please feel free to leave them below or contact Nick Labadie at:

480.240.5640 or nick@roselawgroup.com

I fully support this project. It will
bring increased revenue to Mesa.
I am also largely concerned with
the odor & bugs generated or
coming from the dairy farms.
No protection seems to work

Dairies need to go!
Tests need to be done on
air quality. The smells are
disgusting and nauseating!
Completely unhealthy. I can not
open my doors & windows. ➡➡

Too many cows in such a small area. The cesspools are absolutely disgusting - the smells are horrible.

I would love to see the Rijkersdam Dairy move. He has piled more manure closer to my house & the school in the last few years. ~~It~~ The flies make it very miserable to live here, plus the fires he has every year. If the dairy doesn't move I'm going to.

Why & how - if the properties across 80th @ Paloma South have to be lt. industrial due to the airport, how/why can there be housing where the dairy farms are? If it's possible, then the other properties should be returned to residential/commercial. →

In any case, I am NOT in favor of more houses ruining the rural feel where I live. I am NOT in favor of more traffic. If the farms must leave - go to other agriculture or even more light industrial

In summation: I am NOT in favor of a housing development.
How about a park?

ATTACHMENT C

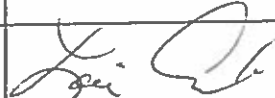

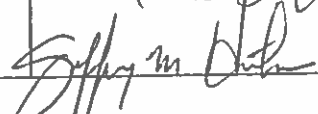

As a nearby neighbor, I, the undersigned, support the attached proposed Inner Loop master plan (case numbers ZON-17-00606 & ZON-17-00607) with a mix of residential and other sustainable uses and respectfully ask the City of Mesa to approve this application that will allow the dairy farmers to rezone, sell their land and relocate their operations.

Dear Property Owner or Resident,

We represent the families that own the dairies near the Loop 202 and Elliot and Warner Roads who are in the process of planning a 1,152 acre master planned community that would be developed where their dairies and the State Land are currently located (map of area attached). Many of you have already heard about and/or been involved with the project by attending a neighborhood or HOA meeting. The feedback has been overwhelmingly positive with comments and suggestions like “residential land use near our homes,” “opportunities for retail and restaurants,” and “how soon can the dairies’ smell and flies leave.” We’ve taken this response and are in the process of finalizing our land use plan through the City of Mesa.

We are hosting a public neighborhood meeting where we will be presenting our most current plan, providing information about the project, and listening to feedback from the surrounding residents. You are welcome to attend to get information, ask questions, or discuss the project. Representatives from the development team will be in attendance to provide information and answer those questions.

NEIGHBORHOOD MEETING
Boulder Creek Elementary – Library
8045 E. Portobello Avenue, Mesa, Arizona 85212
Tuesday, September 25th, 2018
6:30PM – 7:30PM

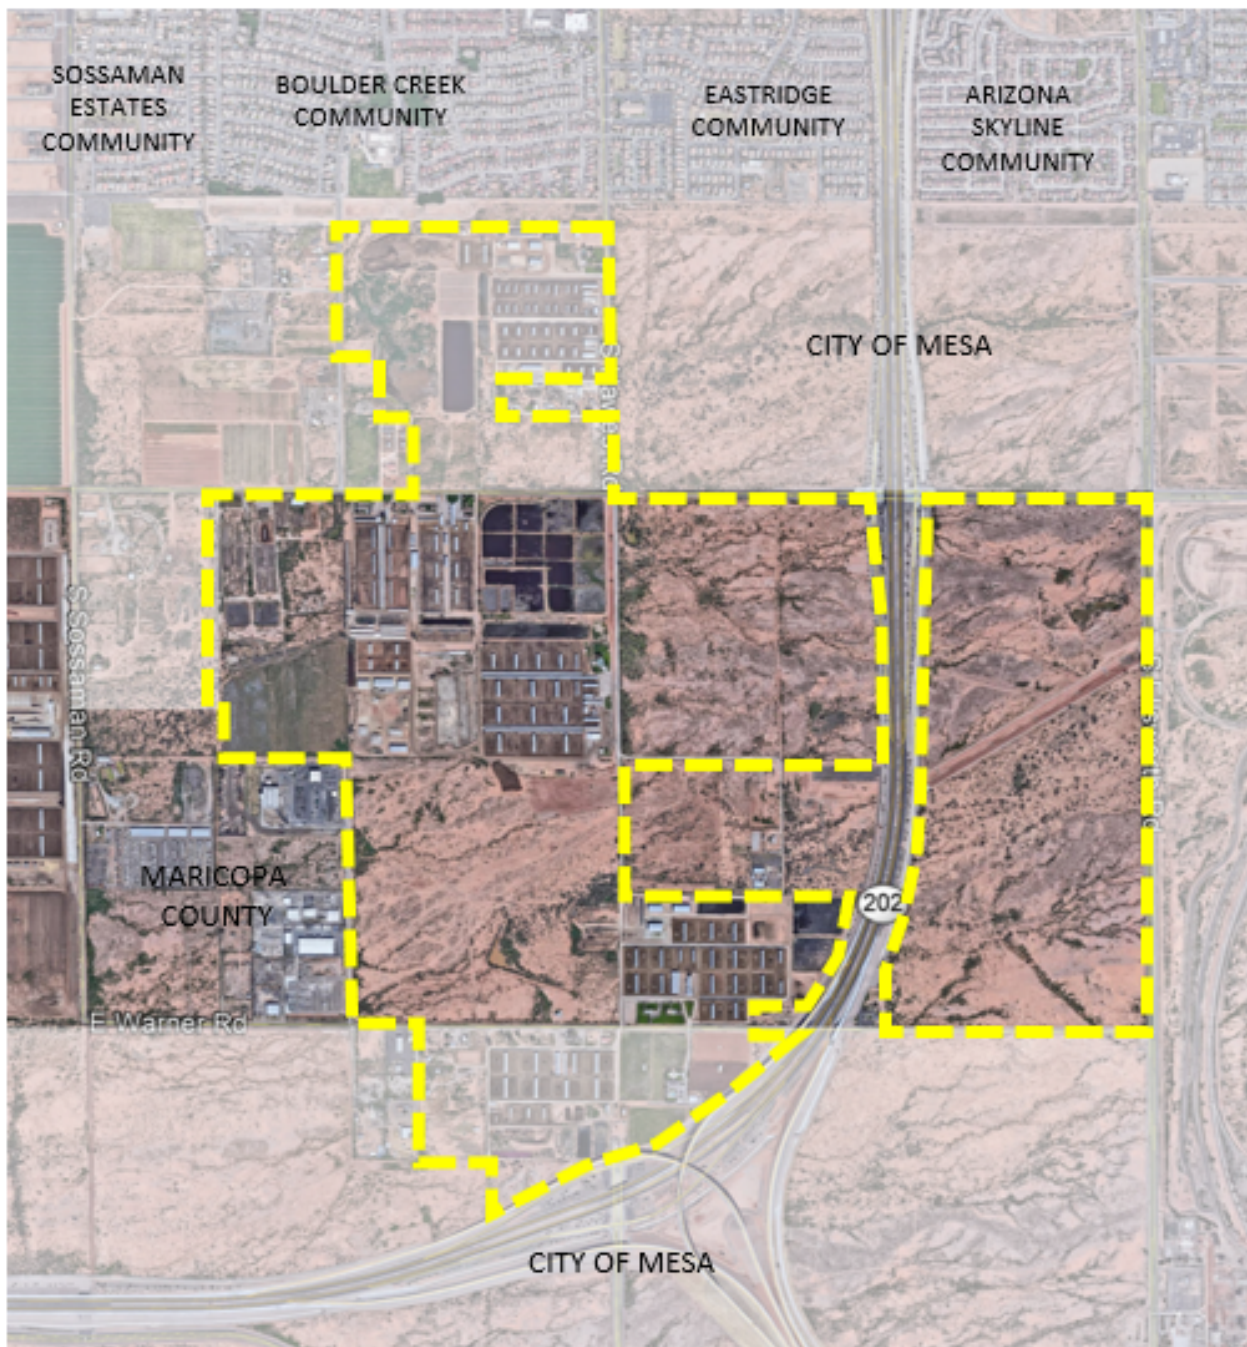

If you have any questions or are unable to attend, please feel free to contact me directly at 480-240-0743 or acaton@roselawgroup.com to discuss the project in more detail. Thank you for your time.

Sincerely,

A handwritten signature in blue ink that reads "Alisse Caton".

We would love to hear your thoughts on the Inner Loop project. Please feel free to leave them below or contact Alisse Caton at:
480.291.0743 or acaton@roselawgroup.com

I'm the only one who actually enjoys living next to the dairy farms. Beautiful, quiet countryside. Peaceful! Less people stuffed in the area. I'm for the farmers sticking around! The smell & flies ~~are~~ remind me to be grateful

What about the water shortage?
It is looming + will happen.
Are you taking landscaping into consideration?
I don't want to see lots of "green"
unless it's cactus.
