

City Council Report

Date: July 1, 2024
To: City Council
Through: Michael Kennington, Deputy City Manager/Chief Financial Officer
From: Edward Quedens, Business Services Director
Kristy Garcia, Procurement Administrator
Subject: Term Contract with Renewal Options for Security and Protection Systems and Related Equipment, Technology, Parts, Support and Services for the Mesa Police Department **(Citywide)**

Recommendation

Council is requested to approve the award as recommended.

The Police Department and Procurement Services recommend authorizing the purchase using the OMNIA Partners/Region 4 ESC – TX cooperative contract with ADT Commercial, LLC and Convergent Technologies, LLC; and State of Arizona cooperative contract with APL Access and Security; at \$1,000,000 annually, based on estimated requirements.

Background / Discussion

Police Department Information Technology (PDIT) coordinates various security projects for the Police Department as well as other Departments in the City. PDIT is requesting the use of an OMNIA cooperative contract with ADT and Convergent; and a State of Arizona Cooperative with APL. Purchases from the vendors may include Security and Protection Systems and related equipment, technology, parts, support, and services.

ADT, Convergent, and APL have the depth, breadth, and quality of resources necessary to complete comprehensive security systems and integration functions. As requested, each vendor will provide the necessary staff and associated resources to provide the City with the services, materials, and obligations.

Using the cooperative contracts will allow the City the ability to purchase a wide variety of equipment and services at competitive rates based on a formally solicited agreement. The cooperative contracts will be available to all City departments. The need for parts, services, and/or licenses will be determined by City departments as projects and funding are identified and developed. Department personnel have worked with ADT and APL and are satisfied with the goods and services they provide. Convergent has a large local presence and can provide access control and CCTV products currently in use.
