

City Council Report

Date: February 22, 2021
To: City Council
Through: Michael Kennington, Deputy City Manager/Chief Financial Officer
From: Edward Quedens, Business Services Director
Matt Bauer, Procurement Administrator
Subject: Purchase of Application Delivery Controllers Software and Support (Upgrade/Replacement) for the Department of Innovation and Technology
(Funded by Department of Innovation and Technology Lifecycle Program Budget) (Citywide)

Recommendation

Council is requested to approve the award as recommended.

Department of Innovation and Technology (DoIT) and Purchasing recommend authorizing the purchase using the National Cooperative Purchasing Alliance (NCPA) cooperative contract and lowest quoted vendor, Sentinel Technologies, Inc., at \$89,491.67, based on estimated requirements.

Background / Discussion

Application delivery controllers (ADC) balance the network traffic to City hosted websites and application services both on premise and in the cloud. They also provide secure access to websites and applications for employees, retirees, and customers. The ADC software licenses will retire current hardware ADC's, while increasing the capacity of existing software ADC's, and allow for ADC services in the City's cloud environment.

The NCPA contract was competitively bid, meets the City's procurement requirements, and allows for cooperative use. DoIT obtained quotes from three cooperative contract vendors. Sentinel Technologies' quote was the lowest bid for this purchase of software.

Purchase Information

Action: Award
Procurement Type: Cooperative Contract Use
Contract Number: 2021139
Contracting Agency/Contract Number: National Cooperative Purchasing Alliance #01-97
Local Consideration: Policy did not apply to this procurement method
