SPECIFICATION DETAILS

* For custom options, consult factory for details.

Fixture Dimensions	W3-1/2" x H9-7/8" x E5-7/8"
Light Source	LED
Wattage	24W
Total Lumens	1600lm
Delivered Lumens	BK-1177lm
Voltage	120V
Color Temperature	3000K
CRI (Ra)	>90
Optional Color Temps	2700K —5000K Available, Minimum Order Quantities Apply
LED Rated Life	50,000 hours
Dimming	100% - 10%, ELV Dimmer (Not Included)
Diffuser Details	Tempered Glass
Location	Wet
Warranty	5 Years
Canopy Dimensions	W4-3/4" x H4-3/4" x E2-3/8"

DESCRIPTION

High powered LED exterior two light wall mount fixture, die-cast aluminum housing molded into a cylinder shape with in powder coated black finish. Concealed inside is our 120V AC LED technology with a tempered glass diffusers radiating light upward and downward against the wall where installed. Certified ETL wet location listed and is available in different sizes and one light options.

INSTALLATION SHEET

START FROM HERE

- Make sure **POWER** is **COMPLETELY OFF** at the fuse box
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area
- Wear gloves at all time during this installation
- Read instructions carefully before you start assembly
- Keep this installation sheet for future reference

Please Note:

- This Kuzco LED fixtures come with pre-wired LED module(s)
- Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
- Use ELV (Electronic Low Voltage) type of dimmer for dimming application
- **Black finish only**

Technical Support: 1-855-855-8926

1. Remove the fixture from its original packaging. Remove the mounting plate (1c) from within the canopy (2b) by removing the two canopy screws (2a). Attach the mounting plate (1c) to the electrical junction box (1a) using the two screws (1d) provided in the hardware package.
2. Attach the canopy (2b) to the mounting plate (1c), which is attached to the electrical junction box (1a) on the wall. First attach all wiring with provided marettes (1b) (white to white "N", black to black "L", ground to ground "G"). Now push the canopy (2b) onto the mounting plate (1c) and install using the two canopy screws (2a).
3. To prevent moisture from entering the outlet box and causing a short, seal around the top and side perimeter between the fixture and the wall surface with weather resistant caulking (see illustration 3). The space at bottom should be left un-caulked to prevent moisture build-up.
4. You have now completed the installation of your fixture, please enjoy.

Illustration 3.

Product Features

Quick Facts

- Available in 14W - 123W (1,800 - 17,000 lumens) models
- Full cutoff and refractive lens models available
- Energy and maintenance savings up to 95% compared to HID
- Energy efficient illumination results in up to 144 LPW
- Replaces 70W up to 450W HID equivalents

NOTES: 1. DesignLights Consortium® Qualified. Refer to www.designlights.org Qualified Products List under Family Models for details. 2. Transformer used only when ordered with motion sensor or AXCS1 through AXCS5 or AXCL6 fixture wattages. 3. Not available in 347 or 480 VAC. 4. Button photocontrol and any motion sensor (MSP, ZW, or LWR) not offered together. 5. Only available on AXCL6-AXCL12 models. 6. Used with 277, 347, and 480 VAC options. 7. Only available on AXCS1-AXCS5 models. 8. This configuration may contain materials that are not RoHS compliant. Contact your lighting representative for more information. 9. Uses deep back housing. 10. Sensor passive infrared (PIR) may be overly sensitive when operating below -20°C (-4°F). For the device to be field-configurable, requires WAC Gateway components WAC-PoE and WPOE-120 in appropriate quantities. Only compatible with WaveLinX system and software and requires system components to be installed for operation. See website for more WaveLinX application information. 11. Replace XX with sensor color (WH, BZ, or BK). 12. Enlighted wireless sensors are factory installed and require network components LWP-EM-1, LWP-GW-1, and LWP-PoE8 in appropriate quantities. See website for application information. 13. The ISHH-01 accessory is required to adjust parameters. 14. Ambient operating temperature -20°C to 25°C for AXCL6 through AXCL10. Ambient operating temperature -20°C to 30°C on AXCS4 models. Ambient operating temperature -20°C to 40°C on AXCS1 through AXCS3 models. 15. Not available with AXCS5 or AXCL12 models. 16. Uses deep back housing for AXCS1, AXCL52, AXCS3, and AXCS4 models. 17. Not to be mounted in upwards / inverted orientation. Downlight wall mount only for AXCS1 through AXCS4. 18. In AXCS1, AXCS2, AXCS3, and AXCS4 models, CBP cannot be used with any sensor option (PC, MSP, ZW, or LWR). 19. Can not be ordered with CBP or PC options. 20. Use dedicated IES files on product website for lumen values and distributions. 21. Requires the use of PC1 or PC2 button photocontrol. See After Hours Dim supplemental guide for additional information. 22. Replace XX with color designation. 23. For use with full cutoff lens configurations only. 24. Lumen Select functionality not available in conjunction with any motion sensor option (MSP, ZW, or LWR). Photocontrol back box not available with any photocontrol or motion sensor options (PC, MSP, ZW, or LWR). 25. This tool enables adjustment to parameters including high and low modes, sensitivity, time delay, cutoff and more. Consult your lighting representative for more information. 26. Requires 4-PIN twistlock receptacle (ZW) option.

Product Specifications

Construction

- Die-cast aluminum housing
- External back fin design extracts heat from the surface to thermally optimize design for longer luminaire life

Optics

- Dark Sky Approved (Fixed mount, Full cutoff, and 3000K CCT only)
- Silicone-sealed optical LED chamber
- Acrylic refractive or full cutoff lens options for Type IV distributions

Electrical

- Driver incorporates 6kV surge protection
- -40°C minimum operating temperature
- 40°C maximum operating temperature

- <20% total harmonic distortion
- 0-10V dimming driver is standard with leads external to the fixture

Mounting

- Steel wedge mounting plate fits directly to 4" standard j-box or directly to wall with the "Hook-N-Lock" mechanism
- Stainless steel set screws
- Lumen Select Back Box accessory offers four 1/2" NPT conduit entry wire ways. Resistor Pack combinations allow field-dimming of 75% or 50% when connected to luminaire dimming leads

Emergency Egress

- Optional integral cold weather battery emergency egress includes emergency operation test

switch, an AC-ON indicator light and a premium, maintenance-free battery pack

- The separate emergency lighting LEDs are wired to provide redundant emergency lighting. Listed to UL Standard 924, Emergency Lighting

Finish

- Five-stage super TGIC polyester powder coat paint, 2.5 mil nominal thickness

Shipping Data

- Small fixture=5 lbs. [2.36 kgs.]
- Small with sensor or CBP=10 lbs. [4.40 kgs.]
- Large fixture=12 lbs. [5.45 kgs.]
- Large with sensor or CBP=17 lbs. [7.73 kgs.]
- Large with sensor & CBP=21 lbs. [9.54 kgs.]

Control Options

0-10V This fixture is offered standard with 0-10V dimming driver(s) for use with a lighting control panel or other control method.

Photocontrol (PC1, PC2 and PC) Optional button-type photocontrol provides a flexible solution to enable "dusk-to-dawn" lighting by sensing light levels.

After Hours Dim (AHD) This feature allows photocontrol-enabled luminaires to achieve additional energy savings by dimming during scheduled portions of the night. The dimming profile will automatically take effect after a "dusk-to-dawn" period has been calculated from the photocontrol input. Specify the desired dimming profile for a simple, factory-shipped dimming solution requiring no external control wiring. Reference the After Hours Dim supplemental guide for additional information.

Dimming Occupancy Sensor (MSP/DIM-LXX and MSP-LXX) These sensors are factory installed in the luminaire housing. When the MSP/DIM-LXX sensor option is selected, the occupancy sensor is connected to a dimming driver and the entire luminaire dims when there is no activity detected. When activity is detected, the luminaire returns to full light output. The MSP/DIM sensor is factory preset to dim down to approximately 50 percent power with a time delay of ten minutes. The MSP-LXX sensor is factory preset to turn the luminaire off after five minutes of no activity.

These occupancy sensors includes an integrated photocell that can be activated with the ISHH-01 accessory for "dusk-to-dawn" control or daylight harvesting - the factory preset is ON. The ISHH-01 is a wireless tool utilized for changing the dimming level, time delay, sensitivity and other parameters.

A variety of sensor lens are available to optimize the coverage pattern for mounting heights from 8'-30'.

WaveLinx Wireless Control and Monitoring System The WaveLinx Outdoor control platform operates on a wireless mesh network based on IEEE 802.15.4 standards enabling wireless control of outdoor lighting. Use the WaveLinx Mobile application for set-up and configuration. At least one Wireless Area Controller (WAC) is required for full functionality and remote communication (including adjustment of any factory pre-sets).

WaveLinx Wireless Sensor (SWPD4 and SWPD5) These outdoor sensors offer passive infrared (PIR) occupancy and a photocell for closed loop daylight sensing. These sensors can be factory installed or field-installed via simple, tool-less integration into luminaires equipped with the Zhaga Book 18 compliant 4-PIN receptacle (ZW). These sensors are factory preset to dim down to approximately 50 percent power after 15 minutes of no activity detected. These occupancy sensors include an integral photocell for "dusk-to-dawn" control or daylight harvesting that is factory-enabled. A variety of sensor lenses are available to optimize the coverage pattern for mounting heights from 7'-40'.

Enlighted Wireless Control and Monitoring System (LWR-LW and LWR-LN) The Enlighted System is a connected lighting solution that combines LED luminaires with an integrated wireless sensor system. The sensor controls the lighting system in compliance with the latest energy codes and collects valuable data about building performance and use. Software applications turn the granular data into information through energy dashboards and specialized apps that make it simple and help optimize the use of other resources beyond lighting.

HALO OUTDOOR™

DESCRIPTION

The HALO entry light provides dependable security lighting with nighttime ON and daytime OFF functionality. Suitable for mounting heights up to 10ft, these fixtures are ideal for residential applications such as entrances, patios and walkways. Produces light output equivalent to 75W incandescent, available in white or bronze finish.

Catalog #	Type
Project

SPECIFICATION FEATURES

Construction

- Corrosion resistant polycarbonate housing
- UV stable frosted polycarbonate lens
- Available in bronze or white finish
- Suitable for recessed junction boxes

Electrical

- Maintenance-free LEDs with 25,000 hours of life
- Fixture operating temperature range from -30°C to 40°C
- Integral photo control included
- Electrical operating voltage 120VAC 60Hz
- cULus listed for wet locations
- External supply wiring 75°C minimum

Optics

- Diffused lens
- 5000K CCT

Warranty

5 year limited warranty

Lumark

DESCRIPTION

The patented Lumark Crosstour™ LED Wall Pack Series of luminaires provides an architectural style with super bright, energy efficient LEDs. The low-profile, rugged die-cast aluminum construction, universal back box, stainless steel hardware along with a sealed and gasketed optical compartment make the Crosstour impervious to contaminants. The Crosstour wall luminaire is ideal for wall/surface, inverted mount for façade/canopy illumination, post/bollard, site lighting, floodlight and low level pathway illumination including stairs. Typical applications include building entrances, multi-use facilities, apartment buildings, institutions, schools, stairways and loading docks test.

SPECIFICATION FEATURES

Construction

Slim, low-profile LED design with rugged one-piece, die-cast aluminum hinged removable door and back box. Matching housing styles incorporate both a small and medium design. The small housing is available in 12W, 18W and 26W. The medium housing is available in the 38W model. Patented secure lock hinge feature allows for safe and easy tool-less electrical connections with the supplied push-in connectors. Back box includes three half-inch, NPT threaded conduit entry points. The universal back box supports both the small and medium forms and mounts to standard 3-1/2" to 4" round and octagonal, 4" square, single gang and masonry junction boxes. Key hole gasket allows for adaptation to junction box or wall. External fin design extracts heat from the fixture surface. One-piece silicone gasket seals door and back box. Minimum 5" wide pole for site lighting application. Not recommended for car wash applications.

Optical

Silicone sealed optical LED chamber incorporates a custom engineered mirrored anodized reflector providing high-efficiency illumination. Optical assembly includes impact-resistant tempered glass and meets IESNA requirements for full cutoff compliance. Available in seven lumen packages; 5000K, 4000K and 3000K CCT.

Electrical

LED driver is mounted to the die-cast housing for optimal heat sinking. LED thermal management system incorporates both conduction and natural convection to transfer heat rapidly away from the LED source. 12W, 18W, 26W and 38W series operate in -40°C to 40°C [-40°F to 104°F]. High ambient 50°C models available. Crosstour luminaires maintain greater than 89% of initial light output after 72,000 hours of operation. Three half-inch NPT threaded conduit entry points allow for thru-branch wiring. Back box is an authorized

electrical wiring compartment. Integral LED electronic driver incorporates surge protection. 120-277V 50/60Hz or 347V 60Hz models.

Finish

Crosstour is protected with a Super durable TGIC carbon bronze or summit white polyester powder coat paint. Super durable TGIC powder coat paint finishes withstand extreme climate conditions while providing optimal color and gloss retention of the installed life.

Warranty

Five-year warranty.

Portfolio

DESCRIPTION

Low brightness round 2-3/4" aperture, LED adjustable accent/slope for flat or sloped ceilings. **365° rotation and 45° tilt mechanism allows LED optic to pivot about the center of the aperture at the ceiling line**, allowing maximum light output without flashback. Available with 15°, 25°, 40°, **55°** optic producing a smooth distribution. Offered with adjustable accent, pinhole, and lensed wall wash trims. Lumen packages ranging from 500 to 2000 with color temperatures of 2400K, 2700K, 3000K, 3500K, 4000K and 5000K, in 80, 90 or 97CRI. Dim to warm technology – similar to halogen at full power, the 3000K LED warms smoothly as dimmed to 1850K creating a rich warm glow within the space. Tunable white technology - adjust the color temperature from warm white to cool white while independently controlling intensity.

SPECIFICATION FEATURES

Lower Reflector

Painted die cast aluminum or anodized aluminum lower reflector providing superior lumen output with minimal source brightness. Flat cut cone allows for full output and tilt rang. Pinhole includes black oculus to control glare. Anodized reflectors are offered in all Portfolio Alzak® finishes. Plaster lathing ring accessory offered for flush reflector transition.

Trim Retention

Reflector is retained with pressure springs holding the flange tight to the finished ceiling surface.

Housing

Steel housing and collar painted matte black to eliminate stray light. Housing is top accessible. Collar adjusts vertically to accommodate 1/2" to 7/8" thick ceilings and locks in position with (4) screws. Extend depth color accessory for 7/8" to 1.25" ceiling thickness. Integral gun sights facilitate the use of guide strings or laser lines. Shipped with overspray protector installed.

Adjustment Mechanism

Mechanism allows smooth 365° rotation and lockable 45° tilt adjustment and locks in position with 1/4" Phillips hex driver. Aiming scale enables consistent setting across multiple fixtures.

Optic

Interchangeable optic in 15°, 25°, 40°, 55° provides smooth beam without color separation. Media holder fits onto optic holder and holds up to two lens media.

Universal Mounting Bracket

Accepts 1/2" EMT, C Channel, Tbar fasteners and hanger bars.

Junction Box

(4) 1/2" trade size pry outs positioned to allow straight conduit runs. Listed for (4) #12AWG (two in, two out) 90°C conductors and feed thru branch wiring for top access units (with top access units only). Lever connectors for simple push in wiring.

Thermal

Forged aluminum heat sink conducts heat away from the LED COB for optimal performance and long life.

LED

Chip on board with a multitude of highly efficient white LED's, combined with TIR optic produces an even distribution with no pixilation. Lumen output shall not decrease by more than 10% over the minimum life of 55,000 hours (L90 > 55,000 hours). Auto resetting, thermally protected, LED's are turned off when safe operating temperatures are exceeded. Color variation within 3-step MacAdam ellipses. Available in 80, 90 or 97 CRI. D2W™ – dim-to-warm shifts CCT from 3000K to 1850K as fixture dims mimicking halogen sources.

Driver

Standard 120-277V 0-10V dimming driver provides flicker free dimming from 100% to 1%. Optional 120V leading edge, <1% 0-10V, Fifth Light, DMX or Lutron® Ecosystem (standard 0-10V driver and 0-10V/ leading edge can be serviced from above or through the aperture others require above ceiling access).

Connected Lighting Systems

Factory installed WaveLinX tile mount sensor kit and Field installed WaveLinX accessory tile mount sensor kit.

Catalog #	Type
Project	
Comments	Date
Prepared by	

The WTA WaveLinX tile mount sensor kit offers daylight dimming, PIR motion sensing control, and optional RLTS - RealTime Location Services available. (Refer to WaveLinX system specifications and application guides for details)

The WTA WaveLinX kit includes control module that mounts on the luminaire electrical junction box via 1/2" knock-out, and tilemount sensor with direct-mount spring clips or for octagon ceiling box with included mounting bracket. (Field mount kit ordered and installed separately).

Enlighted wireless tile mount sensor and relay accessory enables wireless control using a tile mount sensor accessory.

Distributed low voltage power system combines power, lighting, and controls with ease of installation.

Code Compliance

Thermally protected and cULus listed for protected damp locations with open trims and wet location with lensed trims. EMI/RFI emissions per FCC 47CFR Part 18 Class B consumer limits. IC-rated and air tight with lensed trims, RoHS Compliant. Photometric testing completed in accordance with IES LM 79. Lumen maintenance projections in accordance with IES LM-80-08 and TM-21-11.

Accessories		
2RAPR=Round plaster lathing ring (order with rimless option) Bar Hangers HB26=Pair C-channel bar hanger, 26" long HB50=Pair C-channel bar hanger, 50" long RMB22=Pair wood joist bar hanger 22" long Connected Lighting Systems PORLWTPD1=***Enlighted wireless sensor kit WTA=WaveLinx wireless sensor kit for daylight dimming, PIR motion sensing, and optional RLTS - RealTime Location Services, use with D010 only (Refer to WaveLinx system specifications and guides for details) Field installed.⁹ Beam Forming Reflector (required when ordering no optic for distribution) 2R15SP=15° 2R25NFL=25° 2R40FL=40° 2R55WFL=55° EDC25Q=Ceiling extension kit for ceilings 7/8" - 1-1/4"	L100 lenses - color filters L112=Red Gel Filter L114=Ultraviolet, Dichoric Filter L120=Red, Dichoric Filter L121=Amber, Dichoric Filter L122=Yellow, Dichoric Filter L123=Green, Dichoric Filter L124=Daylight Blue, Dichoric Filter L125=Blue, Dichoric Filter L127=Cosmetic (2700K), Dichoric Filter L131=Amber, Gel Filter	L100 lenses - optical lenses L110N=Diffuse Sandblasted Lens: Provides an even beam spread - especially useful in wall washing. L111=Soft Focus Lens: Smooths irregular beam pattern while maintaining high controlled illumination levels and beam angles. L113=Prismatic Spread Lens: Provides a symmetrical broadening of lamp beam. Suitable when a wide, uniform light distribution is required. L115=Linear Spread Lens: Fans out the beam 55° (27-1/2° to each side) to produce a wide rectangular pattern. L100MB=Black finished metal hexagonal-cell louver - controls light spill while retaining lamp optics.

Notes:

- Nominal Lumens will vary depending on selected color, driver and reflector finish.
- Not available with Chicago Plenum.
- Only available with Matte White, Matte metallic silver and Matte Black Finishes.
- Available only on DC.
- Not available on Pinhole or DC distributions.
- DMX fixtures default to full on upon loss of DMX signal.
- Housing ships standard at 15° tilt for optimal wall wash position.
- UL US approved only.
- Refer to system specifications for additional information, features and benefits. Order either factory installed option or accessory, use with 0-10V driver.
- Requires above ceiling access.
- Must be used with lensed reflector.
- Available on D, DL, DLC and DC.
- Limited to D010, D010A and DLVP drivers.
