Nana, please provide me with a written interpretation on the allowable uses of the OC Zoned properties located on the NEC and SEC of Halifax and Power.

1. What are the allowed uses in a privately owned public park?
2. Is there a restriction on the amount of commercial activity that is allowed in a park?
3. Is there a use classification for a private park in the OC zoning district?
4. Is there a use classification for a mobile food park?
5. Is there a restriction on the number of food vendors/food trucks that can conduct commercial operation at the site?
6. What processes are in place to evaluate the compatibility of food truck commercial operations that are immediately adjacent to residential property?
7. How is the parking lot located on the SEC of Halifax and Power allowed under the zoning ordinance?

We can discuss when I return on May 24.

Christine
