File #:	20-0942	Status:	Agenda Ready
Type:	Contract	In control:	City Council
On agenda:	10/5/2020		
Title:	Four-Year Term Contract with Six Years of Renewal Options for Inductively Coupled Plasma - Optical Emission Spectrometry for the Water Resources Department (Citywide)		
	<p>The initial purchase will provide one, Inductively Coupled Plasma-Optical Emission Spectrometer (ICP -OES), for the Water Resources Department - Compliance Laboratory, including installation, training, proprietary supplies and consumables, and maintenance. This instrument purchase is a lifecycle replacement. Years 2 and further will be sole source purchases of consumables, maintenance, and support.</p> <p>The Compliance Laboratory will utilize the instrument to analyze microbial and inorganic samples from the City's drinking water, wastewater, and pre-treatment programs. The current spectrometer, purchased in 2009, has reached the end of its useful life.</p> <p>An evaluation committee recommends awarding the contract to the highest scored respondent, PerkinElmer Health Sciences, Inc., Year 1, at \$143,000, Years 2 through 4, at \$43,000 annually, with an annual increase allowance of up to 5%, or the adjusted Consumer Price Index. The initial purchase is funded by Lifecycle Replacement Funds.</p>
