Purchase of a Total Organic Carbon Analyzer and Autosampler (Addition) for the Water Resources Department (Sole Source) **(Citywide)**

This Total Organic Carbon (TOC) analyzer will be used to calibrate existing instrumentation performance to ensure regulatory compliance at the City's two Central Arizona Project Water Treatment Plants (Brown Road Water Treatment Plant and Signal Butte Water Treatment Plant). Reliability of the TOC instruments are vital to the water treatment operations of the plants.

The Water Resources Department and Purchasing recommend awarding the contract to the sole source vendor, SUEZ WTS Analytical Instruments, Inc., at \$40,000.
